Subject: Citilab results - sample from Isis Street

Hi Tom,

I followed up with Citilab as I was expecting a call back from them with final results of sample analysis from 4 Isis Street.

The paperwork will be sent to me by e-mail when finalised tomorrow, but the lab say nothing to worry about in the sample and nothing nasty there. There are small amounts of different metals present.

I will forward the Citilab report when received.

Hi Tom,

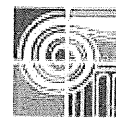

Please see below. If Nat Wilson is the person at 25 Isis Street where we dealt with the leak, do you have an e-mail address for her and I will forward the report.

Thanks

Hi Lichelle,

I am guessing this is the property owner who had the mysterious blue coloured liquid leaking from a pipe on her property and into the street.

I will check with Tom Reading as he had been in touch with her around the time. I can arrange for the report to be sent once confirmed.

Thanks

Responding quickly to your message from Nat Wilson will help increase their trust and confidence in your Page.

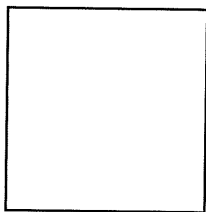

Still waiting on an analysis report about a leak coming into my property. Was phoned with a preliminary result, told a full report would be available in the following week. That was 2 months ago.

Thanks for that.

I've just called up Waste Tech who are going to be organising for analysis. I asked them to keep in touch about it as I want to keep an eye on what they are doing. I don't know much about the company or what their normal service levels are.

No sorry no contact details for the resident
Qu will Wastetech Services from Dunedin also clean up the driveway on the private land?

In the long run I think it will be best to and WDC Roding will pay.

Thank you

Hi Tom,

Wastetech Services from Dunedin are en-route to clean out the sump and will also wash footpath down and take that away.

The substance will then be tested so they know how to dispose of it and we establish what it is in case of any future problems. Then we can also let the resident know.

Thanks

Hi Gen

Thank you for the below information.

Is the Waitaki District Council confident this substances isn't going somewhere else since it has been blocked off from this property by a plumber where it was leaking through and also not going into groundwater.

If you have any questions please don't hesitate to get in touch.

Thanks

Tracey Diack
