Dear Mohammed,

Official Information Act (1982) Request

I write in response to your Official Information Act request, dated 08 July 2019. You requested the following information:

- **The total number of PGY1 House Officers positions filled in by ACE matching system (2014 - 19)**

- **The total number of PGY1 House Officers filled in by candidates from a comparable healthcare system e.g. UK, Ireland, USA, etc (2014 - 19).**

Counties Manukau Health (CM Health) provides health services for communities of Counties Manukau, Franklin and the northern Waikato region. We work collectively with the metro Auckland DHBs to provide RMO training and consistent recruitment processes. We make the following notes to assist with data interpretations.

1. The House Officer training year commences in November of each year. The training year dates that were covered by the information requested are as follows:
 - 25/11/2013 to 23/11/2014 (2013 ACE Process)
 - 24/11/2014 to 22/11/2015 (2014 ACE Process)
 - 23/11/2015 to 27/11/2016 (2015 ACE Process)

2. Offers of employment for candidates who come through the ACE system [as part of the national annual recruitment cycle] are made in early August of each year, for appointments that will commence in November, for the next training year.
3. The number of PGY1 appointments detailed in response to Question 1 is for the PGY1 House Officers that came through the ACE system. The numbers of PGY1 positions filled may be higher than the

numbers matched by ACE, as a result of candidates being appointed from the ACE talent pool, after the match process had been completed nationally.

4. There is no data provided for the 2019 ACE process - because it is not yet complete. This is for appointments that will commence in the 2019/2020 training year starting 25 November 2019.

Question 1 - The total number of PGY1 House Officers positions filled by ACE matching system 2014-2019.
