

| Residents Feedback for Melbourne Street, Fawcett Street and Oxford Street LED Lighting Trial | | | | |
|--|---|--|-------------------------|---|
| When you go out at night do you feel safe along your street with the new lighting? | How do you rate the level of lighting provided by the new lights? | Is the colour of the new lighting on your road acceptable? | My colour preference is | Do you have any other comments about the road lighting in your street? |
| Safer with new lights | About right | Yes | | |
| | | | | Do not go out at night so cannot help. |
| Safer with new lights | About right | Yes | | |
| No change | About right | Yes | | |
| Safer with new lights | About right | Yes | | My bedroom window is directly opposite the lighting in our street. With the new LED lights it doesn't stream right into my room. It seems to cover more ground. |
| Safer with new lights | About right | Yes | | |
| Safer with new lights | About right | Yes | | Prefer the new lights. I find the new lighting much better than the old lighting. It is easier on the eyes than older lights. It seems to light up street better. |
| Safer with new lights | About right | Yes | | This one street light outside number 40 is on its own timer Tuesday the 8th January. Light comes on at 9pm and goes out at 12 past 9pm. The other two street lights are not on. This one outside number 40 house comes on at 10 to 10pm. |
| Safer with new lights | About right | Yes | | |
| No change | Too much | Yes | | Prefers brighter lights. Not really? As I don't really go out nights? As arrive out of garage by car. Bottom line I have never really notice effects. |
| No change | About right | No | White | Research from the American Medical Association had found that the cold white light of LED lamps can have potentially harmful health effects impairing sleep and vision. I therefore appeal you to ensure that those LED lights that are being trialled at the moment and those soon to be implemented in the wider Dunedin area do not have such harmful health effects. Apart from that, I think it is a great idea and very energy-wise decision! I like the design of the lamps too. |
| Safer with new lights | About right | Yes | | It is nice to have bright lights and also shines better on the property. |
| Safer with new lights | About right | Yes | | Prefers the new lights. I feel a lot safer with new lights. Want them to stay! |
| No change | About right | No | | Prefers a warmer light. The LED lighting was cold white. It would be preferable to have a warmer glow on residential streets. |
| Safer with new lights | Don't know | Yes | | |
| No change | About right | Yes | | Prefer LED light |
| Safer with new lights | About right | Yes | | Is excellent |
| Safer with new lights | Don't know | Yes | | Could be a bit brighter. |
| Safer with new lights | About right | Yes | | |

| | | | | |
|-----------------------|-------------|-----|-------------------------|--|
| No change | About right | Yes | | Prefers LEDs. |
| | | | | Sorry to say, I can't give an opinion on the new lighting on our street. I am an elderly lady and choose not to go out at night. I can't see that this is much help to you but was encouraged by the young man who delivered this paper to do so. I wish you luck in your deliberations. |
| No change | Not enough | Yes | | Road is not so well lighted, there appears to be more areas not as well lit and darker shadows. |
| No change | About right | Yes | | Prefers new lighting. Less glare in wet weather with LED's. |
| No change | About right | Yes | | I felt the new lighting is great. We are getting less streetlight in our house but the road and footpath lighting is still good. |
| No change | About right | Yes | | |
| Safer with new lights | About right | Yes | | The lighting seems to be good and thank you for providing good lighting. |
| No change | Don't know | No | | I don't go out at night and that is why I won't say anything about it. |
| Safer with new lights | About right | Yes | | I noticed them right away the first night I arrived home. The street was well lit and clearly visible without being too bright or intrusive. |
| Safer with new lights | About right | Yes | | LED lights! Any! |
| Safer with old lights | About right | No | orange | Disgraceful concept with LED. Agenda 21 should NOT be implemented. These lights are light emitting and CONTROL every person within range. Coward council members should feel disgrace! |
| Safer with old lights | Too much | No | I prefer the old lights | Yes. I do not want new LED lights to which monitoring technology can be attached. This is an infringement of my privacy and a waste of my rates dollars. Fix the roads and under-road infrastructure instead. |
| No change | About right | Yes | | |
| Safer with new lights | Too much | Yes | | Though it is a great and wonderful safety mechanism, I have had to buy Blackout curtains, as way too bright with the bedrooms at the front of the house. Also the lights from Melbourne Street shine in my backyard and into lounge. Which is not a bad thing for the backyard security, however I have added blackout curtains to that room. Not a cheap process for single parent home owner, but safety walking around is better for those who do. |
| Safer with old lights | Not enough | Yes | | It is so dark outside my house with the new lights installed. I feel that there needs to be more lights, and that those lights need to be brighter. |
| Safer with new lights | About right | Yes | No colour preference | Satisfied with the light. Especially late at night we can see where are going. |
| Safer with new lights | About right | Yes | Anything but yellow. | The amount of light entering the house is alot less. The lightening is more directed and great for sleeping. |
| No change | About right | Yes | Any preference | |
| Safer with new lights | About right | Yes | | |
| Safer with old lights | Not enough | No | | The road is less well lit |
| Safer with new lights | About right | Yes | | The extra light is good for the security of our st. |
| Safer with new lights | About right | Yes | | |
| Safer with new lights | About right | Yes | | I think there great no glare into bedrooms |
| Safer with new lights | About right | | No preference | |

| | | | | |
|-----------------------|-------------|-----|-------------------------------|--|
| Safer with new lights | About right | Yes | | |
| Safer with new lights | About right | Yes | | |
| No change | About right | | | Didn't like at first, but not to bad now |
| No change | About right | | | Didn't like at first, but not to bad now |
| Safer with new lights | About right | Yes | White | |
| No change | About right | Yes | Colour in our street suitable | All good |
| No change | Don't know | Yes | | |
| No change | Don't know | Yes | | |
| No change | Don't know | Yes | | |
| Safer with new lights | About right | Yes | | Generally happy |
| No change | About right | Yes | | |
| Safer with new lights | About right | Yes | | Pretty good |
| Safer with new lights | About right | Yes | | Pretty good |
| Safer with new lights | About right | Yes | Any | |
| Safer with old lights | Not enough | | | Not enough light, dark areas between lights, would need more lights, house are dark and might encourage crime. Less safe to walk on street. |
| No change | About right | Yes | | Happy with lights |
| Safer with new lights | About right | Yes | Cool daylight | Nah |
| Safer with new lights | About right | Yes | No preference | New lights are good |
| Safer with old lights | Not enough | No | YELLOW | Not a good distribution of lighting |
| Safer with new lights | About right | Yes | Blue light | Light flickered, on and off two days at all night, delta fixed, may have been bad weather. |
| Safer with new lights | About right | Yes | Blue light | Light flickered, on and off two days at all night, delta fixed, may have been bad weather. |
| No change | About right | Yes | White | Clarity of objects |
| Safer with new lights | About right | Yes | Not concernd | Looks brighter, see further can see further |
| Safer with old lights | About right | Yes | Warm White | The light level is good, quite bright where the lights are but the contrast of the lit areas and the unlit areas makes the unlit areas way darker which makes it scarier at night. |
| Safer with new lights | About right | Yes | Like what is currently on. | Sometimes goes off and on throughout the night. |
| Safer with new lights | About right | Yes | White | Good job thanks |
| Safer with new lights | About right | Yes | White | Good job thanks |
| Safer with new lights | About right | Yes | White | |
| Safer with new lights | Not enough | Yes | White | Need more |
| | | | | |
| Safer with new lights | About right | Yes | | |

| | | | | |
|-----------------------|-------------|-----|-----------------------------|--|
| Safer with new lights | About right | No | Amber | Overall happy |
| No change | Don't know | Yes | No preference really | I haven't noticed a change in the lights |
| Safer with old lights | Not enough | No | Amber | the new lights have made it harder to see when driving, and to find my house |
| Safer with old lights | Not enough | No | Amber | the new lights have made it harder to see when driving, and to find my house |
| Safer with old lights | Not enough | No | Yellow | Spooky and do not feel safe. Burglars would love them. |
| Safer with new lights | About right | Yes | | |
| No change | About right | Yes | The new ones are way better | The change was good. |
| Safer with new lights | About right | Yes | White or yellow | All good |
| Safer with new lights | About right | Yes | White | Sleep better with new lights as less sideways glare into house. |
| Safer with new lights | About right | Yes | Yellow white | |
