Hi there,

Thanks for the clarification and glad my assumption was correct 😊 .

I'll deal with the Councillor and make sure I get across that we don't have any 'policy' on the placement, that it complies under the NES and that this overrides the DP and send the comms that you've already sent. All OK with that?

And that Erris St question better not be hard for a Friday – I already have to deal with [REDACTED]

Cheers,
Halley

Hi Halley,

For clarity (not that it has any real bearing on anything!) the pole we discussed on site was in Erris St in Johnsonville, not this one.

As I it happens I do have a question for you on that (Erris St) site which I will flick through shortly.

Cheers,

Laurence Beckett

Good Morning Halley!

I'm not sure about Laurence, but the one you and I discussed was another site in Tawa.

For this site we have sent a letter and then I have spoken to a couple of residents and exchanged a few emails. Attached is our internal email with a copy of the letter and where it went to.

At this point I have agreed to provide a more accurate visual montage from the viewing aspect of one of the residents, and agreed to a site meeting on the afternoon of the 21st August.

Our site location is incredibly constrained here and the alternatives site search was exhaustive - I need to check in with the business on how the engagement should be run between now and the meeting in light of this.

Happy Friday indeed!

Thanks
Ben

Good morning Ben and Laurence,

I think we've already talked on this one (or was that another one where they were getting excited...). Anyway, please see the trail below. I thought sending the link to her would suffice given we've not got an application but clearly not.

Question, so that I don't reinvent the wheel, what have you given to the residents already? And is my assumption correct in so far as this will be NES compliant or ?.

Happy Friday!

Thanks,
Halley
