Dear Eliana

Local Government Official Information And Meetings Act 1987

Bike-path around the Favona foreshore

I refer to your request which we received on 30 August 2019, regarding all information regarding the processes and considerations undertaken in deciding on and implementing the cycleway/bike-path around the Favona foreshore of the Manukau Harbour.

We transferred your request to Auckland Transport (AT) because your request appeared to be more closely aligned with the functions of AT. However, after you clarified your request as being for:

The full and complete information for is regarding the cycleway between Saleyards Road in Otahuhu and Mahunga Drive in Favona.

We have now agreed with AT that the council are best placed to respond.

I also refer to our email to you on 25 September, acknowledging your request and extending the timeframe for us to respond to your request. Thank you for your patience while we have worked on this response.

In response to your request, I consulted with the council's Community Facilities department to provide information relevant to your request.

Please find following information **attached**:

Safety plan of work and the path

- Norana Esplanade Walkway (Stage 1 and 2) Project Safety Plan; and
- Updated CPTED safety assessment of proposed walkway.

Resource consents

Resource consents were granted for stage 1 and stage 2 of the walkway development on a non-notified basis. A copy of both consent decisions for Stage 1 and Stage 2 (BUN60307713 & BUN60318240) is attached.

Consultation process

The council has consulted on the proposed walkway on more than one occasion. It is for the council to determine the nature of that consultation. The Local Government Act 2002 gives councils a broad discretion as to whether to consult, and if so, how to conduct that process.

In this case, the council consulted on the proposal for the Norana walkway through:

- a special consultative procedure on the Māngere-Ōtāhuhu Local Paths Plan, with the wider local board area; and
- through specific consultation on the concept plan for the walkway with the local community around the proposed route.

All consultation feedbacks

- Norana pathway Submissions Summary

Consultation outcomes

- Norana Walkway post consultation March 2017 update

Cultural consultation and consideration

- Norana Walkway cultural report dated January 2017

Ecological Consideration and report

- Bioresearches Memorandum dated 1 December 2017

The initial cycle-way plan and revised plan

- Norana Esplanade walkway stage 1 (overall plan) dated March 2017;
- Norana Esplanade walkway stage 2 (part 1 & 2 location plan) dated August 2017; and
- The revised overall route of walkway which shows current extend of pathway construction.

Details of contractors

CLL Service & Solutions Ltd is the contractor delivering all the physical works.

Pricing of contracts

The value of construction contract between CLL and council is \$4,313,641.82

Sustainability plan

There is no specific sustainability plan.

This is a new construction on a greenfield site and therefore there is no existing material available for re-use in the walkway, for instance. Excavated material such as materials for the walkway, where there are few acceptable/complying substitutions.

Please refer to the Bioresearches Memorandum for more information relating to environmental sustainability.

Please note that some contact details of staff members and members of the public have been redacted from the Norana Esplanade Walkway Project Safety Plan to protect their privacy. This information is withheld under section 7(2)(a) of the Local Government Official Information and Meetings Act 1987 (LGOIMA).

Due to the size of the attachments, the information can be accessed by using the below OneDrive link
