Type: Burglary (4120)  
Event Occurred: 19/01/2020 at 07:54 to 19/01/2020 at 08:15  
Narrative: Between the reported times, the informant's business office has been burgled.  
P040645540 linked to the call taker notifying Dispatch.

The building alarm was activated and Amourguard dispatched a guard, who saw two windows had been jimmed open. Police were not called at the time and the guard did not notice anything missing from inside the office.

The point of entry to the building is via a right hand side window at the back, as two have been jimmed. The offender/s may have needed to climb up onto a heat pump unit underneath the window, to enter the building. These windows open straight into the office for the National Party. Nil obvious evidence has been left behind.

The internal door to this office, which leads into a hall way and other member's of Parliment's offices. The informant discovered his office door still locked and secured, there was nil attempt to enter other areas of the building.

Three laptops and a portable hard drive, value approximate \$7000, have been stolen - the serial numbers for these items will be uploaded to the CRL web portal by the informant later.

The informant commented that a week earlier, his building had been plastered with anti Chinese Government posters, but it is not known whether this is linked.

The informant is the Campaign Manager for the National Office and is the contact person for the file.
