Hi there

I've spoken to my GM and the contingency team – what you are suggesting may well be an option. We are still waiting for some further information from the regional team- and if we are going to progress, I'll give you a call.

Thank you so much for your willingness to help – it is really very much appreciated.

Take care

Kind regards

[REDACTED]

Hi [REDACTED],

In consideration of the legalities (?questionable) around locuming whilst your employees are on strike , the sonographers here at waikato dhb would be agreeable to coming in here (WHDB)on weekends above there normal work week, if this is agreeable with outsourcing condition, rather than Locums coming to CMDH . We do need to discuss this senario with our management, but would you be agreeable to this.

Thank you

Kind regards

[REDACTED]

Hi there

Thanks for the quick response. So we would like to know from you and your team if there is there any availability to do Mon- Frid work as well as weekends?

The current company that does some outsourcing for us does 4 per session (e.g. AM or PM) – 8 in a day, however this is not a fixed requirement for us.

Work would be at Manukau Super Clinic (a wee bit closer for them!)

Room availability at MSC weekdays;

DAY	AM	PM
Mon	2 rooms	2 rooms
Tues	2 rooms	1 room
Wed	2 rooms	1 room
Thur	2 rooms	2 rooms (3 rd Thursday only 1)
Frid	2 rooms	2 rooms

If your staff are only available on weekends, we will still be keen, and I will investigate rooms etc further.

Thanks so much

Hi [redacted],
What dates would you be looking at ? what sort of numbers per session and where would they be locate (middle more/super clinic?)
Thanks

Hi [redacted]
We'd like to move forward with this if it's possible? However, in discussion with our cardiologists it would be better if our patients were scanned here (transport issues/elderly etc) Can you tell me what availability you cardiac sonographers might have and what rate they'd be looking for as a locum? It would seem that weekend work might be easier for them?

Can you let me know?

Thanks so much

Cheers

Hi,
We are not in the position to pick any extra work here presently either as we are currently down on staff also.
What about Locum cardiac sonographer? A few of my team may be interested?
Thank you
Kind regards

Hi
Our patients to come to you. And it would be based on what you could cope with without flooding you.
Your team needs to be safe and not overloaded.

Thanks

Hi [REDACTED],
Thanks for the email.
Do you require sonographers to work there or work to be performed here at Waikato DHB?
What number of patients would you be looking at?

I should be free after 4pm today if you would like to have a phone conversation .
Thanks
Kind regards

Hi [REDACTED]

We only do vascular ultrasound and I am afraid even with that we don't have any extra capacity – we just lost a full-time qualified vascular sonographer so we have been reduced from a 3 person team to 2. I am sorry I can't help! [REDACTED] is the charge echocardiographer here, it might be worth contacting her for the echos?

Kind regards

Hello [REDACTED]

I have been given your name and email address by [REDACTED]

You'll be aware that the Auckland metro DHB's have a notice for an upcoming strike- and the Union have stated that we should explore the options of other DHB's undertaking some of our more urgent work.

Please could you tell me if you have any capacity for cardiac echo's and general sonography at all?

I would be so grateful if you could get back to me as soon as you can, there is a sort of paperwork to be done.

If it's easier- my cell phone number is [REDACTED], or a reply to this email is also fine.

Thank you so much
Kind regards
