Tēnā koutou

We look forward to welcoming you to the next key datasets for resilience and climate change lead agency hui on Tuesday 31st March 2020.

It will have been six months since we last met, and it will be good timing to assess the priorities for our June 2020 deadline, when we will formally report on the project outcomes.

The purpose of this meeting is to:

- * review the key data improvement plan
- * discuss key issues and risks
- * consider ways to promote the key datasets at the national source of truth
- * remind ourselves why this work is so important for New Zealand citizens

More information to follow, but for now please could you confirm your availability on this date.

Thanks,

The LINZ Resilience Team
