Climate Change - Suburbs Data Improvement Plan

Yes, I'll send you an invite to a Skype call. What times suit you tomorrow?

Subject: RE: Key Data for Resilience & Climate Change - Suburbs Data Improvement Plan

Hi Chris

Thanks for your quick response to this and I would be very keen to work with you to get the wording right.

Unfortunately I will be based in Nelson Thursday and Friday, but I am available for a conference call tomorrow. Would that be a possibility for you?

Thanks, Susan

Subject: FW: Key Data for Resilience & Climate Change - Suburbs Data Improvement Plan

Hi Susan

Craig passed the below email to me, as Matt's manager.

We need to make changes to the wording in some places, including the priority improvement wording you have proposed below. Are you available to meet to discuss this and see if we can get it right?

Thanks.

Kind regards

Chris Juriss

Subject: Key Data for Resilience & Climate Change - Suburbs Data Improvement Plan

Hi Matt

Further to the lead agency hui last week, to discuss the data improvement plan for resilience and climate change, please find attached the slides from the key datasets presentation.

We are looking to get sign off from FENZ to publish the initial report (pages 1 - 14) by Friday 14th June.

The additional survey responses (pages 15 - 79) will only be shared with the lead agencies and those who provided a survey response.

I understand that you are now away for three weeks, and I'm sorry we were not able to catch up last week.

Given the project timeframes, I've asked Craig MacAlpine to see if he can help confirm FENZ sign off to publish the report by the end of this week.

The priority improvement for suburbs is:

FENZ to publish Suburbs as webservice with a Creative Commons license by June 2020.

We really appreciate your ongoing support with this project, and are keen to discuss what needs to happen to ensure we can confirm FENZ sign off of the data improvement plan this week.

For example, one option could be that we start a conversation between FENZ and LINZ around publishing the suburbs data on the LINZ Data Service if this made the improvement easier to achieve.

If that were of interest we could change the priority improvement wording to

FENZ and LINZ to collaborate on publishing Suburbs as webservice with a Creative Commons license by June 2020.

If we are not able to sign off either of these options, I'm happy for you to suggest alternative wording, however, if we get to end of Friday and do not have agreed wording, I will need to update the improvement to something like

FENZ are unable to commit to the priority improvement to publish Suburbs as webservice with a Creative Commons license at this time.

Please feel free to give me a call on 027 7776222 if I can help with anything or if you have any concerns.

Thanks, Susan
