Dear Christine

Subject: Official Information Act request Re: Planning and Funding and Maori Health teams

Thank you for your request for information under the Official Information Act received by Lakes DHB on 25 February 2020. You have asked:

1. In the last five years has there been any increase in staffing numbers both employed and as contractors in the Lakes DHB Planning and Funding Team? Can I ask for both actual numbers and percentage of staff number growth in this area if it applies in the last five years.

In 2015 there were 11 people in the planning and funding team and in 2020 there are 13. This is a percentage increase of 18%.

We currently have eight contractors running projects that are fixed term.

2. Can I ask for the percentage of Maori staff in the planning and funding team and if any of these Māori staff are employed in Portfolio positions?

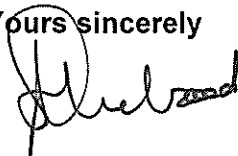

The percentage of Maori staff in the planning and funding team is 23.16%. None are portfolio managers.

3. During this period what has been the increase in staff numbers in the Lakes DHB Māori Health Team? Can I ask what current staffing numbers are for this team and what actual numbers and percentage growth in staffing numbers for this team have occurred in the last five years if this applies?

In 2015 there were seven staff members in the Maori Health team and currently there are seven.

Please note we may publish this letter and enclosed documents (with your personal information removed) on Lakes DHB's website.

Yours sincerely

Nick Saville-Wood
Chief Executive
