What is Auror?

Auror is a Retail Crime Intelligence Platform that has been developed to help retailers report, solve and prevent crime. It enables this through a user-friendly interface which encourages more crime to be reported in a structured way. Retailers choose to share this information with NZ Police.

Auror is an important tool that assists Police in working closer with businesses [redacted] Over the course of recent years working together, [redacted], and work closer with the retail community.

Introduction from NZ Police

9(2)(b)(ii) of the OIA 1982

[redacted]

Police National Headquarters

Auror is an important tool that assists Police in working closer with businesses and the community to prevent and solve crime. We're pleased with the results of our partnership, and hope you find this guide a useful introduction to key functions.

Auror enables police to connect people, vehicles and other information, helping to build an accurate view of organised shoplifting groups and other criminal activity. By aggregating the relevant data about targeted stores, areas, products and times, police can deploy appropriate resources to prevent and respond to crime.

We look forward to continuing this partnership, producing better outcomes for the community, and building on the successes to date.

Introduction from Auror

9(2)(b)(ii) of the OIA 1982 [redacted]

Auror.

On behalf of Auror, we're excited to be working with New Zealand Police. Since Auror started, we've been driven to transform the way businesses and police prevent and solve crime, using technology, information, and collaboration to help make our communities safer.

We know that dealing with volume crime in the past has often been a difficult experience. We want to change that and in the process save you time while getting better outcomes.

Businesses across the retail sector, including supermarkets, petrol stations, and department stores now use Auror. It helps them to quickly and easily report crime, identify offenders and organised groups, and prevent more crime in their stores.

We're excited to have you as part of the Auror community, working together to solve and prevent more crime!
