Draft content re bridlepath

- Content currently reflects this out of scope but leaves open to further investigations.
- Some discussion re in/out of scope; Noted the potential additional costs based on PP2O enquiries; approx. \$6M excluding property, bridges, etc; Robyn reminds that it is out of the Crown-determined scope and budget hence should no longer be investigating.
- Noted that there is some (limited) community interest so we should clarify with them when appropriate that its regrettably outside of scope;
