

SMS Incident Report

02/12/2019 09:12:46

Summary

CAD Number F2866954 **Status** Closed
Station Auckland City Station
Incident Started 22/10/2019 13:09:37 **Incident Ended** 01/11/2019 16:56:17
Incident Type 1101: Structure fire with damage
Common Name NEW ZEALAND INTERNATIONAL CONVENTION CENTRE
Address / 87-93 Wellesley Street West Auckland Central
Alarm Method 111 Telephone **Alarm Level** 5
PFA Number
Zone 142006
Map Grid E 1756911 **Map Grid N** 5920392
First Caller [REDACTED] **First Caller Contact** [REDACTED]
Incident Closed 01/11/2019 19:02:10
Report Completed 15:53, Fri 22 Nov 2019 by [REDACTED]

Incident

CAD Number F2866954

Incident Reporter [REDACTED]

Incident Controller

Distance Travelled (km)

Delay In Receiving Call

Property Details

Occupant Fletcher Construction

Building Owner State owned

General Property Use Construction, Renovation, Demolition site

Special Property Use Building under construction

Purpose Group

Actions

Persons Reported

Trapped

Evacuation Status Evacuation in progress

Action Prior 1**Action Prior 2****Action Taken** Extinguishment, salvage and ventilation**Civilians**

Civilians Rescued	0
Civilians Extricated	0
Civilians Assisted	0
Civilians Evacuated	400

Origin

Location Ceiling and roof assembly
Level Roof space

Equipment Used

Quantity	Equipment
6	Low pressure delivery
4	Monitor
6	Aerial Ladder/Platform
2	Fire Extinguisher
1	Gas Detector/PID
2	Rescue saw
1	Medical/First Aid Equipment

Equipment Involved

Equipment Involved

Year**Make****Model****Fire**

Arrival Condition Large fire
Heat Source Unable to classify
Termination Stage
First Object Ignited
First Object Material
Second Object Ignited
Second Object Material
Indicated Cause Undetermined

Certainty of Cause Medium
Age of Person Unknown
Ethnicity Unknown
Gender
FAIP Service Offered Unknown

Alarms

Type of Alarm Smoke Detector System (Monitored)
Initiating Call
Performance of System Did not operate - detector not in room of origin
Failure/Ineffectiveness of system Detector not in room of origin
Number of sprinkler heads operated

6th Alarm International Convention Centre fire

[REDACTED]

11/22/2019 3:53:35 PM

Reporter Comments

This fire was first observed by 207 and 201 crews whilst at a PFA a [REDACTED] College Hill. A priority message and transmit 3rd Alarm was made by myself describing a large roof top fire in the vicinity of Wellesley and Victoria Streets West. On arrival met with Project Manager [REDACTED] who took 207 and 201 crews into the building and up to the 5th level, where there was no observed fire inside the building at that stage and crews were tasked by myself to run a LPD off the nearest riser main (Level 2, 1 floor below road level) . The first delivery to the roof consisted of 22 lengths. Observations by SFF [REDACTED] who I had assigned a FCO at this time was that of a well developed fire impinging on portable gas cylinders and due to no water yet being established on the LPD that they would attempt to use dry powder extinguishers. This fire was rapidly growing and after further discussions with [REDACTED] we recognised that it was already in the ceiling space.

This fire went on for a further 10 days until a stop message was transmitted at 1700hrs on the 1st of November. Fire investigation into area of origin and cause are still being undertaken at a high level by a team of Specialist investigators.
