Response to a request for official information

Dear Elodie

Thank you for your request for official information received 6 April 2021 by Nelson Marlborough Health (NMH)¹, followed by the necessary extension of time 4 May 2021 and notice of decision 1 June 2021, where you seek the following information.

I am seeking information on the performance and service of DHBs for their provision of mental health services. I would like data for the following:

For all of your Mental Health services including Child and adolescent mental health; adult mental health, emergency, acute, crisis response; elderly:

- 1. Number of new entries/cases per month, by age group (five year bands if possible*), 2015 – 2020 calendar year***
**Five year bands are ideally 0 – 5, 6 – 10, 11 – 15, 16– 20, 21 – 25, 26 –30, etc. If there is too much suppression in those age bands can it please be in ten year age bands.*
- 2. Number of cases open at month end, by age group (five year bands), 2015 – 2020 calendar year***
- 3. Number of people exiting per month, by age group (five year bands if possible*), 2015 – 2020 calendar year***

NMH response: Please see attached data for Questions 1 – 3.

For the DHB

- 4. Number of hospitalisations for mental health per year, emergency and non-emergency, by age group (five year bands), 2015 – 2020 calendar year***

NMH response: There were ten mental health admissions to a non-mental health hospital facility over the five year period from 2015 to 2020. Exact numbers each year, and further break-down by age group, are withheld under Section 9(2)(a) 'to protect the privacy of natural persons, including that of deceased natural persons'. Due to low numbers there is a risk of individual identifiability. In the circumstances, the withholding of that information is not outweighed by other considerations which render it desirable, in the public interest, to make that information available.

5. Number of people waitlisted to see a psychologist per year, by age group (five year bands), 2015 – 2020 calendar year

NMH response: This information is not held in a form that is readily retrievable from our Information System and, under section 18(f), *'the information requested cannot be made available without substantial collation and research'*. It would take a significant amount of time and resources to extract and manually review individual patient files to collate this information.

6. Number of people seeing a psychologist, per year, by age group (five year bands), 2015 – 2020 calendar year

NMH response: Table One shows the number of Mental Health & Addiction (Outpatient) community contacts attended by a Psychologist noting, since a new reporting system was implemented, data prior to 2019 is not readily retrievable from our Information System.
