We do not calculate a subsidy based on Unit. The subsidy provided by Government and Rates is calculated based on total network patronage and revenue estimates. Funding is calculated across the entire Public Transport service regardless of Unit structure.

Public transport services in New Zealand is funded through three sources:

- User fares
- Local rates
- Government grants

The net cost for public transport contracted services (gross contract cost minus fares) is funded 49% from rates and 51% from government grants via Waka Kotahi NZTA.

You will be aware that if you are not satisfied with this response, you are able to refer this matter to the Office of the Ombudsman under s27(3) of the LGOIMA.

Please be advised that we now put LGOIMA responses that are in the public interest onto our website. No personal details of the requester are given, but we do summarise the essence of the request alongside the response.

Should you require any further information or clarification, please do not hesitate to contact Lillian Sewell in the first instance (<u>lillian.sewell@ecan.govt.nz</u> or 033677340).

Yours sincerely,

Katherine Harbrow Director Operations
