Subject: RE: GSF annuitants - pre 1985 retirees

Hi Philippa

Wow – that must mean they had retired before they were 21 – I’m guessing that wasn’t an ideal situation. That is interesting and gives some context for the potential length of the tail of the liability.

Ngā mihi

Paul

Subject: GSF annuitants - pre 1985 retirees

Hi Paul

Following on from our conversation, I thought you might find it interesting to know the youngest pre 1985 retiree is I think around 57 today. So the age profile is not nearly as old as you might think.

We have a number of members in this group who are ex Armed Forces and will have short service then will have medically retired.

Kind regards

Philippa
