Hi Moana,

Here's a [link](#) to the Regional Transport Committee's agenda for 8 June 2021 meeting which includes:

- A report from the Regional Land Transport Plan (RLTP) Hearing Subcommittee. Paragraphs 18-20 address the Johnsonville Line matter
- A report recommending approval of the RLTP 2021. Attachment 2's section 6, appendix A.3.2 covers the rapid transit network.

You may want to forward this to Cr Calvert.

Cheers, Joe

Subject: RE: Question from Cr Calvert

Hi Moana,

The attached email from Kate shows what we said we would report back on, which states “Officers to report back on what has gone well and what has not gone well in the current Medium Density Areas – we will present these findings when we brief you in more detail about the residential zone provisions next month.” This hasn’t been done.

We have done an overall monitoring report (in 2019) which includes resource consents numbers and analysis for the medium density zones and the residential areas generally (see attached). This has informed policy development as part of the work on the spatial plan and DP review. The NPS-UD makes these medium density areas redundant so any conclusions being drawn from what has and has not happened and what this might point to with the Spatial Plan/District Plan is in my view not relevant. This in my view is sufficient, alongside the considerable evidence base generated by the Beca report - *Wellington Outer Suburbs Assessment and Evaluation Documents* (wellington.govt.nz), plus the Residential Amenity Report and Pre-1930s reports undertaken by Boffas.

The Research Team has commissioned a piece of work to understand peoples lived experience of living in medium density areas/houses. This is due soon – don’t have an exact date. This was requested by cllr Day.

At this stage, we do not have the time or resourcing to do further detailed research and analysis on the medium density areas.

Thanks Joe. Can Cr Calvert have a copy?

And John – do you have a response for her Johnsonville MDH question?

Hi team,

The Regional Transport Committee (RTC) are meeting on 8 June to consider the final Regional Transport Plan (RTP). I understand that the hearings subcommittee didn't recommend any change to the Johnsonville line matter.

The RTC's final RTP will go to GWRC for adoption on 29 June.

Cheers, Joe

Subject: Re: Unit titles submission

I will check with him.

On another matter, I understand GWRC is publishing a document on what it seems as rapid transit lines and the naming of specific rapid transit line stations. Has WCC received a copy and can I get it?

Plus how is the review into the delivery of the Johnsonville MDH area that was put in place in 2013?

Cheers

Diane

Hi

Following the report in the Dom Post today, are you able to provide any information to elected members on why WCC did not submit?
