**Subject:** Day Pass Test status

Hi [REDACTED],

I have included the latest testing update for the Day Pass for review and discussion.

We are working through an understanding around zone boundaries.

regards

[REDACTED]

**Test Summary:**

**EOD 15.1.5** deployed 14/4 includes 5 Day Pass products (excluded Day Pass Zone BC)

The ability to purchase a Day Pass where there is engaged products (active Day and Monthly Pass on AT HOP Card) requirement is met.  
The ability to purchase a Day Pass where there is Non-engaged (not active Day and Monthly Pass on AT HOP Card) requirement is not met.  
The pricing of the Day Pass depending on the Product (single Zone, two Zone and All Zones) requirement is met.

**EOD 15.1.6** deployed yesterday includes all 6 Day Pass products so we will need to execute tests to cover the Zone BC product.

**EOD 16.1.x** is planned for deploy on the 24<sup>th</sup> April with a Test Summary due on the 9<sup>th</sup> May.

All JIRAs listed below have the Action - ***AT to consider impact and action plan.***

I suggest that JIRA THAL-1915 is assigned to Thales to investigate and explain why the Day Pass product is not filtering correctly on the TOT, VRD and Web Portal.

**Test Results:**

Non-Engaged Day Pass – Jira [FAIL THAL-1915](#)

Engaged Day Pass – [PASS](#) but need to test Zone BC product using EOD 15.1.6

Non-Engaged Monthly Pass – Jira [FAIL THAL-1915](#)

Engaged Monthly Pass – [PASS](#) but need to test Zone BC product using EOD 15.1.6
