Hi Nic

This OIA wasn't picked up by enquiries so we have exceeded the 20 day limit. Would you mind reviewing Moana's response below to Brian Warburton? The decision was made to refuse the request as the information is publicly available; links to the info have been provided.

This should have been transferred to Wellington Water, if it had been done in time. But I also note answers to these questions are available publicly at the following links

<https://www.wellingtonwater.co.nz/pwp/documents/>

<https://haveyoursay.gw.govt.nz/poriruawwtp>

I'm happy for us to refuse as its available otherwise.

Ngā mihi,

Richard Hopkins

Hi Richard

Could you have a read of this OIA and let me know if you're able to respond? This one was missed through enquiries so we are past the 20 day deadline, Moana has asked if we can do our best with a speedy response.... Let me know how achievable that it. See email from Moana below.

Draft response letter - <http://daisy.pcc.local/otcs/llisapi.dll/app/nodes/8817799>

Dear Porirua City Council,

The Council is in the process of seeking RMA consents for Porirua's wastewater treatment plant. The proposal entails a discharge of 'treated' wastewater to the coastal marine area (the CMA). The landward limit of the CMA is defined by the alignment of the Mean High Water Springs (MHWS) - see section 2 of the RMA.

Please provide me with the following information:

- in the preparation of its consent application did PCC undertake a site-specific survey to determine the location of MHWS.
- if PCC undertook such a survey what was the outcome of that.
- if PCC undertook such a survey what was method used to determine the alignment of the MHWS.
- if no such survey was undertaken, was that a deliberate decision or was it an oversight.
- if PCC didn't undertake an up-to-date site-specific survey, and relied upon other information about the location of the MHWS what was that other information it relied upon.
- if the omission of such a survey was a deliberate decision the corresponding reasons.

Yours faithfully,

Brian Warburton

Hi Becky

This was sent over a month ago and wasn't logged so we are already overdue. If your team (Richard?) could respond asap that would be greatly appreciated.

I also wonder because it's again about MHWS whether in our previous responses we have already answered this by default. I'm happy to chat with Richard about that.
