Subject: Official Information request - COVID-19 inoculations and culpability for human rights violations, crimes against humanity, and/or war crimes

To Chris Hipkins,

To the extent that it is practicable, this request extends to all persons, boards, councils, committees, subcommittees, organisations, bodies, or individuals advising on such matters, or otherwise exerting influence in any capacity. If this request relates to information that you have reason to believe may be held by any other persons or bodies, I trust that you will forward this request to them and advise accordingly.

Is Chris Hipkins aware of any long-term safety data for any COVID-19 inoculations? If so, what is that data?

Is Chris Hipkins aware of any long-term efficacy data for any COVID-19 inoculations? If so, what is that data?

Considering what is and what is not known of long-term safety and efficacy of COVID-19 inoculations, what consideration has Chris Hipkins given to the status of COVID-19 inoculations as “experimental” medical treatments? What scientific and medical basis does Chris Hipkins have for asserting that COVID-19 inoculations are not “experimental” medical treatments? If this has not been considered by Chris Hipkins, then why has this not been considered?

What contingency plans have been considered by Chris Hipkins, if COVID-19 inoculations may prove to be unsafe, ineffective, unnecessary, and/or otherwise harmful to personal health and/or public health (as “public health” is generally understood)? If this has not been considered by Chris Hipkins, then why has this not been considered?

In consideration of positions, polices, and/or legislation (including, but not limited to messaging and medical advice, collective punishments, and segregation) which may appear as intent to use force, fraud, deceit, duress, over-reaching, or other ulterior forms of constraint or coercion to encourage, incentivize, or otherwise promote COVID-19 inoculations, what consideration has Chris Hipkins given to the effects of such positions, polices, and/or legislation respecting healthcare providers' legal and ethical obligations to empower their patients to exercise their rights of informed consent (including rights of informed refusal)? How do such positions, polices, and/or legislation respect patients' rights regarding informed consent (including rights of informed refusal)? If this has not been considered by Chris Hipkins, then why has this not been considered?

In consideration of positions, polices, and/or legislation (including, but not limited to messaging and medical advice, collective punishments, and segregation) which may appear as intent to use force, fraud, deceit, duress, over-reaching, or other ulterior forms of constraint or coercion to encourage, incentivize, or otherwise promote COVID-19 inoculations, what consideration has Chris Hipkins given to the effects of such positions, polices, and/or legislation respecting individual human rights (including human rights as recognised under national and international frameworks), such as individual human rights to privacy and confidentiality of medical information; and individual human rights to refuse medical treatment, with or without reason? If this has not been considered by Chris Hipkins, then why has this not been considered?

In consideration of the questions raised above, and related matters, what consideration has Chris Hipkins given to the possibility that positions, policies, and/or legislation (including, but not limited to messaging and medical advice, collective punishments, and segregation) which may appear as intent to use force, fraud, deceit, duress, over-reaching, or other ulterior forms of constraint or coercion to encourage, incentivize, or otherwise promote COVID-19 inoculations, may expose proponents, advocates, and/or actors on behalf of such positions, policies, and/or legislation to culpability for human rights violations, crimes against humanity, and/or war crimes? If this has not been considered by Chris Hipkins, then why has this not been considered?

Thank you,  
ASE 2021120302
