Dear P Shaw

***Request for information***

Thank you for your request of 14 February 2022, in which you requested the following:

- 1. all communications between the New Zealand Police and any company where the police sought to contract that company to remove the vehicles associated with the "Convoy 2022" protest either in the parliament grounds or within 1km of the parliamentary grounds over the period of 08/02/2022 - 12/02/22.*
- 2. Also, the police stated they could not establish meaningful communication with the "Convoy 2022" protest organisers. I would like to request the documents or communications that were intended for communication with the "Convoy 2022" protest organisers over the period of 08/02/2022 - 12/02/2022.*
- 3. I would like to request all documentation or notices of illegal activity issued to the "Convoy 2022" protest organisers or the "Convoy 2022" protestors during the period of the 08/02/2022 - 12/02/2022.*
- 4. I would like to request any information held by the New Zealand Police that has been referred to by the New Zealand Police as 'misinformation' as it relates to the "Convoy 2022" protest during the period 08/02/2022 - 12/02/2022.*
- 5. I would like to request any communications between the New Zealand Police and any and all representatives of the following companies; Stuff Limited, over the period of 08/02/2022 - 12/02/2022.*

Your request has been considered in accordance with the Official Information Act 1982 (OIA), and I can now provide the following response.

As you may be aware, the Independent Police Conduct Authority (IPCA) has commenced an independent investigation and review (Review) of the policing of the occupation on and around Parliament grounds in Wellington during February and March 2022 (Protest).

Details of the scope of the Review are available on the IPCA's website<sup>1</sup> and you will note this scope includes Police operational execution (including tactics), Police engagement with protestors and other stakeholders, and management of intelligence.

Whilst this Review is underway, information relating to the issues under investigation and review is expected to be the subject of examination by the IPCA under its powers of investigation under

the IPCA Act 1988. With this Review commenced, there is a strong public interest in allowing these matters to be considered in the round by the IPCA.

We consider that the following information requested tends to go to the heart of the matters that are under investigation and review by the IPCA:

*1. all communications between the New Zealand Police and any company where the police sought to contract that company to remove the vehicles associated with the "Convoy 2022" protest either in the parliament grounds or within 1km of the parliamentary grounds over the period of 08/02/2022 - 12/02/22.*

*2. Also, the police stated they could not establish meaningful communication with the "Convoy 2022" protest organisers. I would like to request the documents or communications that were intended for communication with the "Convoy 2022" protest organisers over the period of 08/02/2022 - 12/02/2022.*

*4. I would like to request any information held by the New Zealand Police that has been referred to by the New Zealand Police as 'misinformation' as it relates to the "Convoy 2022" protest during the period 08/02/2022 - 12/02/2022.*

Where such information is available, it is withheld in reliance upon section 9(2)(ba)(ii) of the OIA. It is in the public interest for the Review to be completed without earlier predetermination of the matters it is considering.

We consider the following information requested may be released as indicated:

*3. I would like to request all documentation or notices of illegal activity issued to the "Convoy 2022" protest organisers or the "Convoy 2022" protestors during the period of the 08/02/2022 - 12/02/2022.*

Please find attached copies of the following documents:

- Standard conditions for the use of Parliament Grounds
- Trespass notice relating to Parliament Buildings dated 10 February 2022.

Please note the personal details of the trespassed person have been redacted pursuant to section 9(2)(a) of the OIA, to protect personal privacy.

People who were arrested and released also received a standard summons or bail notice.

*5. I would like to request any communications between the New Zealand Police and any and all representatives of Stuff Limited, over the period of 08/02/2022 - 12/02/2022.*

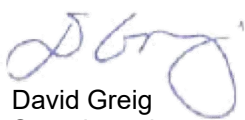

Please refer to Attachment 1 for copies of email correspondence between Police and employees of Stuff Limited, between 8 and 12 February 2022. Some information has been withheld under section 9(2)(a) of the OIA, protect the privacy of natural persons. Police does not consider the public interest in the release of this information outweighs the reasons for withholding it.

The IPCA anticipates the Review will be completed and reported on by 31 March 2023. Police recognises the importance of transparency in these matters and looks forward to the release of the IPCA's report, at which time more detailed information regarding the Police response to the Protest will likely be publicly available.

Please note that as part of its commitment to openness and transparency, Police proactively releases some information and documents that may be of interest to the public. An anonymised version of this response may be publicly released on the New Zealand Police website.

You have the right to ask the Ombudsman to review my decision if you are not satisfied with the response to your request. Information about how to make a complaint is available at: [www.ombudsman.parliament.nz](http://www.ombudsman.parliament.nz).

## UPDATE: Protest activity, Parliament grounds

Wednesday, 9 February 2022 – 5:15pm  
Wellington

Statement to be attributed to Wellington District Commander Superintendent Corrie Parnell:

Police have this afternoon arrested three people on the grounds of Parliament after they attempted to breach the Police line.

This is extremely disappointing as until this occurred, the activity of most of those present has been peaceful for the majority of the day.

Police will maintain a presence at Parliament tonight and will continue to monitor activity recognising that people had a right to peaceful protest.

Police remind the public that there will continue to be some disruption to traffic flows in central Wellington, and motorists should allow extra time as delays are likely this evening and tomorrow (Thursday) morning. For the most part, traffic around the city is largely free-flowing.

A small part of Molesworth Street remains impassable to through traffic and the area around Parliament, including the northern end of Lambton Quay and lower Bowen Street, should be avoided and alternate routes sought.

Anyone with any specific concerns in relation to the protest activity should contact Police via 105.

Hi,

s9(2)(a) from Stuff here, getting back in touch in the wake of getting an OIA response (s9(2)(a)).

I wanted to ask if police would reconsider one element?

The response mentioned one of the names declined for a change was due to the fact the "name was associated with an extremist organisation known for its violence."

Would it be possible to get this name? I'd rather ask directly as it's quicker than the Ombudsman, and I can't see how any possible victims could be identified from this information?

Thanks,

## UPDATE: Protest activity, Parliament grounds

Wednesday, 9 February 2022 – 10:01 pm  
Wellington

Statement to be attributed to Wellington District Commander Superintendent Corrie Parnell:

The three men arrested on Parliament grounds earlier today have been charged with obstruction.

The men, aged 61, 57 and 50, have been bailed to appear in the Wellington District Court on Monday 14 February.

All three have also been officially trespassed from Parliament grounds.

At this time, these three men are the only people to be issued with trespass notices from Parliament since the protest activity began on Tuesday.

It should be noted Police and Parliamentary security staff made an approach to identified organisers earlier today, on behalf of the Speaker of the House, to request the removal of tents and all structures within Parliament grounds. This did not constitute a trespass notice.

There have been no further arrests or significant incidents on Parliament grounds this evening and Police continue to engage with organisers from the different groups present.

Police staff will remain on Parliament grounds overnight.

## UPDATE: Protest activity, Parliament grounds

Wednesday, 9 February 2022 – 5:15pm  
Wellington

Statement to be attributed to Wellington District Commander Superintendent Corrie Parnell:

Police have this afternoon arrested three people on the grounds of Parliament after they attempted to breach the Police line.

This is extremely disappointing as until this occurred, the activity of most of those present has been peaceful for the majority of the day.

Police will maintain a presence at Parliament tonight and will continue to monitor activity recognising that people had a right to peaceful protest.

Police remind the public that there will continue to be some disruption to traffic flows in central Wellington, and motorists should allow extra time as delays are likely this evening and tomorrow (Thursday) morning. For the most part, traffic around the city is largely free-flowing.

A small part of Molesworth Street remains impassable to through traffic and the area around Parliament, including the northern end of Lambton Quay and lower Bowen Street, should be avoided and alternate routes sought.

Anyone with any specific concerns in relation to the protest activity should contact Police via 105.

Car crash – SH1 East Taieri

A 57 year old male was driving a ute and stopped on the side of the road waiting for a work colleague to arrive, and while there a van has come along and because the 23 year old male driver wasn't paying attention, clipped the back of the ute forcing it off the road into the ditch, the van sustained serious damage and caused the driver to be trapped for a short time before freed. The 57 year old male was taken to Dunedin hospital for assessment as believed to have concussion, and the 23 year old treated at the scene. This is a reminder about the dangers of being distracted while driving and that crashes can happen very quickly.

Everything else is family harm, mental health/attempted suicide

Hope that helps

Morning all.

I wanted to follow up on the matter below / [this story](#) to see whether there's any update on the police investigation.

Previously you said it was yet to be determined whether "alleged activity has occurred". Has the investigation now confirmed the officer's use of the fake vaccine pass?

I understand that the officer who allegedly used the fake passport, [s9\(2\)\(a\)](#), and his supervisor, [s9\(2\)](#), have been stood down. Can you confirm this is the case? If so, when were the pair stood down?

I understand [s9\(2\)](#) is being looked at for fraudulently using a document. Has he been charged with any offence yet? If so, when is he due to appear in court?

I'd appreciate a response by 5pm today.

Many thanks,

Afternoon,

I've learned of concerns a police officer in North Canterbury has been using a fake vaccine pass, with the blessing of his superior.

What action have the police taken in relation to these concerns?

Where, when and how did the officer obtain the fake pass, and for what purpose?

Was he vaccinated, and, if not, was he still on duty or had he been stood down, as per the mandate for frontline staff?

Why did his boss allow him to use the pass?

What action has been taken in relation to the officer's superior?

What other incidents of police officers using fake vaccine passes have arisen nationally?

I look forward to hearing from you.

Regards,

Hi,

[s9\(2\)\(a\)](#) from the Marlborough Express here. I am inquiring about an incident that took place at around 4am on Wednesday 12 January at 153 Scott Street in Redwoodtown Blenheim, where two young boys were caught on a home security camera going through an unlocked car. I have attached a link to the article we originally published at the bottom for reference.

I was wondering whether there had been any updates surrounding this incident, particularly whether the young offenders had yet been apprehended?

I was also wondering if there was any information that could be given regarding recent vehicle break ins and vehicles being robbed of possessions in Marlborough, as there have been quite a few of these incidents reported around Blenheim and Marlborough over the last couple of months.

Regards,

This would have to be processed by the OIA team.

It's also worth noting that not all calls may be captured - there's a specific code for this type of report but in all likelihood not all are coded that way.

Hi there,

I was hoping to find out about the number of calls to police on 111 and 105 about boy racers on Crawford St in Te Rapa in Hamilton in the last six months?

I talked to a man who lives nearby who says it's a really big issue, and he calls the police frequently, but officers never attend.

Was it possible to get some information about if enquiries are being made about boy racers at this location? And what police can/will do?

Thanks,

Kia ora, just a quick query to ask about the car removals from Lambton Quay.

When I went past at 1030 last night after my shift the cars had all gone.

Did they leave voluntarily or did you bring in tow trucks?

If it's the latter, can you give me some details of the timing - when and how long it took

Many thanks

Hi Phil

I am reaching out about a burglary at a car storage yard at approximately 1053 Tremaine Avenue in Palmerston North, discovered on Saturday morning. It seems the cars were damaged and targeted for their Alloy Wheels.

Police Comms only had the following information to share with me:

P049553044, I can see we were notified of an alarm activation at 2:49am on Feb 6 at a premises on Tremaine Ave.

This follows another incident where a woman's car had its mag wheels taken off overnight on 4 February outside her home.

I would love to get something from you about what police were doing to address the ongoing issues around car related thefts in Palmerston North? As well as things people can do to help prevent being the victims of these thefts and any other comments you would like to add.

There is a big outcry from members of our community, feeling that this is the worst it has ever been and being fed up with police seemingly not doing their jobs.

If we can help to provide some reassurance that this is being taken seriously by police, it might help calm the court of public opinion.

Many thanks

Hello police media team

s9(2) [REDACTED] has passed the below on to me - I understood the assault was outside Coromandel Area School, but your statement says Coromandel Medical Centre.

Heya,

Was hoping to find out anything I can about the serious assault outside Coromandel Area School yesterday. The school posted on Facebook, which is everything I know, so I've attached that.

Thanks!

Hi team

I know you are busy with the protest, however I am looking to get some information around a dog attack in the Hokowhitu area of Palmerston North yesterday (09 Feb 22) involving three Pitbull's.

I believe the police attended the call and assisted. Am I able to get some information around this call out and whether there will be charges laid against the dog owners.

Thanks

Kia ora,

Just spoke to Pete on the phone and he said I should flick you an email about it - saw in the event publisher that there was a call-in for trespass in Pipitea this morning (P049594856). Was that related to the protest? What was going on?

Hi,

Matt Hampson from the Marlborough Express here. I am inquiring in regards to the anti-mandate protesters currently camped out at Nelson Square in Picton. I am wondering:

- Are police responding to this situation today?
- If so, how are police responding (are they moving in?) and when?
- What is the general plan by police for managing this situation?
- Are there any comments that can be given by police in regard to this situation?

Regards,

Car crash – SH1 East Taieri

A 57 year old male was driving a ute and stopped on the side of the road waiting for a work colleague to arrive, and while there a van has come along and because the 23 year old male driver wasn't paying attention, clipped the back of the ute forcing it off the road into the ditch, the van sustained serious damage and caused the driver to be trapped for a short time before freed. The 57 year old male was taken to Dunedin hospital for assessment as believed to have concussion, and the 23 year old treated at the scene. This is a reminder about the dangers of being distracted while driving and that crashes can happen very quickly.

Everything else is family harm, mental health/attempted suicide

Hope that helps

Hi,

s9(2)(a) from the Marlborough Express here. I am inquiring about an incident that took place at around 4am on Wednesday 12 January at 153 Scott Street in Redwoodtown Blenheim, where two young boys were caught on a home security camera going through an unlocked car. I have attached a link to the article we originally published at the bottom for reference.

I was wondering whether there had been any updates surrounding this incident, particularly whether the young offenders had yet been apprehended?

I was also wondering if there was any information that could be given regarding recent vehicle break ins and vehicles being robbed of possessions in Marlborough, as there have been quite a few of these incidents reported around Blenheim and Marlborough over the last couple of months.

Regards,

s9(2)(a)

Hi there,

I understand you're busy today so no rush on this. Could I please request the latest data the police have collected on hate crimes in the new hate crimes register? I would please like to request information like how many have been reported and what the breakdown of the hate crimes is.

Would I also please be able to see the questionnaire that police are using to qualify / gather the information and designate a crime as a hate crime?

Looking to please get a response on this by end of day on Monday, if possible please.

Thanks for your time,

Hi there,

We've had a tip come through that there is a diesel spill running from Beach Haven to Glenfield this morning. Tip says it is running down Bentley and Chartwell roads. Have you heard anything about this?

Thanks for your time,

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good morning.

I'm working on a story about the resignation of Timaru police dog handler Constable Stu Cann.

I understand that Cann quit after a police investigation, Operation Manu, last year revealed he was having an affair with suspected drug dealer s9(2)(a) [REDACTED]

s9(2)(a) [REDACTED] was arrested when the investigation terminated in late October and was charged with possession of methamphetamine, offering to supply methamphetamine, and conspiring to sell methamphetamine.

I understand that as part of the investigation, Cann's s9(2)(a) [REDACTED] property was searched, and he also came under scrutiny by the police's national integrity unit.

It's thought Cann was supplying information to criminals about police activities, such as when searches were going to happen, however it doesn't appear this was ever proved as he was never charged with an offence.

- What did Operation Manu / the National Integrity Unit inquiries reveal about Cann's conduct? For instance, what evidence was there to suggest Cann was using drugs or passing information to criminals?
- When and why did police search Cann's home? Was any evidence of wrongdoing uncovered as part of the search?
- When did Cann resign from the police?
- What reason did he give for his resignation?
- What inquiries into Cann's conduct were underway at that time?
- What were the findings of any of those inquiries into Cann's conduct, or did he resign before they could be concluded?
- How did police first become aware of Cann's relationship with s9(2)(a) [REDACTED]? Was it through a tip (either external or internal) or via Operation Manu?
- What systems are in place to ensure police officers aren't corrupted?
- What are the police's policies around staff having relationships with people who might be involved in criminal offending?

I'd appreciate a response by 5pm today.

Happy to discuss on the phone if anything needs clarifying.

Regards,

Good morning,

My name is [s9\(2\)\(a\)](mailto:s9(2)(a)@stuff.co.nz) and I am a journalist at Stuff, working in their Auckland team.

I am hoping I am able to get an update/statement around the Tactical Response Model,. following the last update on September 22 2021.

In the September update, it was noted that so far 780 police had undergone Frontline Skills Enhancement Course training so far, and the goal was to train 2000 staff by July 2022. Are police on track to hit that

number?

It would be great to have this information by 5pm tomorrow, if possible. Please let me know if you would like any clarification on what I have asked above.

Hi,

I've asked Hawke's Bay DC about what was said (on social media) to have been a stabbing at the Napier Countdown.

The DC said there was an event of some sort and they would talk to media about it.

He would not tell me what it was.

Can you let me know what it was please

Hi [s9\(2\)\(a\)](#)

There is no specific offence that this would come under in our system. Depending on the circumstances a report of this could be coded under a number of different categories such as breach of the peace, traffic offending, noise control... therefore we wouldn't be able to provide you with the number of complaints specifically relating to this in our system, however I can say that anecdotally we're not immediately aware of this being a significant matter raised with us.

Thanks,  
Nick

Kia ora team,

I have a query regarding noise complaints around Auckland in regards to "siren battles".

Do you have any idea how many noise complaints about cars blasting music from loud speakers have been made around Auckland in the past six months, by suburbs?

Thanks so much :)

Hello,

I'm doing a follow up story on the fatal crash in Southland about 3.30pm that involved a rider who was on a dirt bike near Otautau on Monday.

- Will the deceased's name be released today?
- Exactly how did this accident happen - can you be specific eg was it on a farm property, public road, did it involve any other vehicle?
- Has the cause of the crash been determined yet by the serious crash unit, did the unit attend the incident?
- Was this a work related incident?
- Will charges be laid?
- How were police notified of this incident?

Deadline for responses is 11am.

Thank you,

Could you pass that on at all? through the Alexandra Police I would imagine?

I'm trying to get info from them too. Have had a similar response from health officials though, telling me it's a police matter now.

Hi folks,

Wondering if I can get a short summary of a case referred to police yesterday afternoon.

A man was caught at the Johnsonville Mall vaccination centre getting his 8th booster dose, as I'm told. CCDHB say the matter is now with police.

I'm told by someone who was there that he was being paid \$200 per jab.

Would police be able to advise what happened, how old the man was and whether he has been charged or fined, etc etc? Any detail would be appreciated.

To reiterate, I'm told this happened around mid-afternoon at the Johnsonville Mall vaccination centre.

I'm working on this today so would appreciate something as soon as possible. Appreciate the chaos down at Parliament may be taking resources.

Cheers,

It also allows us to keep a recorded record of the conversation.

Kia ora Erin,

s9(2)(a) [redacted]

s9(2)(a)

I appreciate many agencies are involved with young offenders, but I am keen to get police's perspective on how they handle them.

Things I would like to talk to someone about include:

\*What the process is for "processing" people too young to be charged, and if there are special considerations during the apprehension of especially young offenders. I imagine it's quite different to dealing with a seasoned 40-something who has a lengthy history of offending.

\*You made mention of other agencies being involved when young people offend. I imagine those agencies work together/share information with each other. It would be great to talk about how, from police's perspective, those processes work, how/if they have changed over the years and why they're important.

\*While arresting young people for offending is one thing, I imagine police do some proactive/educational things to try to deter young people from committing crime. I imagine that's what the old Blue Light Disco was about back in the day. I'm interested in what police do these days (although I imagine Covid has put a spanner in the works of a few programmes) to try to encourage pro-social behaviour among young people.

\*Perhaps it's just me, but I imagine a lot of young people who offend come from familial backgrounds that are less than ideal. That's informed from what I see when I cover Youth Court. Is it the same for those very very young people being apprehended, or is it more a case of "kids being kids"?

I hope that gives a bit more context as to where I'm coming from with this story. And yes, I'm looking at it more as a national story.

Kind regards

Further to our phone conversation. We are very happy to work on this with you.

As also explained, while Police deal with a youth offender/ and their family/whanau or caregivers at the outset...there other agencies wrapped in like OT or MSD who are heavily involved.

So what I need from you is some more pointed questions so I can find the find the right person...as also mentioned, we need to prepare our people. While they are good at their jobs, they are not necessarily used to talking to the media.

Because the data is across the country - I expect we'll be looking for someone at a national level. If we can't find someone to talk to you directly... are you happy with a written statement to address your questions?

We look forward to hearing from you.

Kia ora,

Hope things are going alright with you at the moment.

I got an OIA back recently about the youngest people apprehended by police last year. I've attached it to this email.

I was hoping you would be able to point me in the right direction to someone at police who I could talk to about the challenges of dealing with very young people. The OIA shows children as young as 5 being involved in things like aggravated robberies and perverting the course of justice. There is also the typical stuff, like shoplifting and graffiti.

My take on the story is more around the challenges of dealing with young people, how important it is to work with them early on to avoid reoffending - things like that. Talking with an officer with experience dealing with youth would give some great context.

Feel free to give me a call on my cell if that's an easier way to sort things out. I'm working from home s9(2)(a) but am going to be attending some court hearings via audiovisual links throughout the day.

Kind regards

- 1. How many stolen/damaged/abandoned vehicles has the police removed in Hamilton and the Waikato district in 2020, 2021 and 2022 (to date)? I would like this information broken down on a year by year basis.*
- 2. What has been the cost of removing stolen/damaged/abandoned vehicles in Hamilton and the Waikato district in 2020, 2021 and 2022 (to date)? I would like this information broken down on a year by year basis.*

Your request has been considered in accordance with the Official Information Act 1982. I can advise:

1. Vehicles which are stolen and vehicles damaged in crashes are towed with the consent of the registered owner or driver. The registered owner or driver is normally liable for any towing and storage fees as a result. In rare cases, Police may tow without the consent of the registered owner if, for example, it is likely to be re-stolen. Any costs incurred by Police for towing would almost certainly come out of each District's budget.
2. Abandoned vehicles are referred to the road controlling authority - Waka Kotahi or the respective local council - for removal. Police would normally only remove such a vehicle if it posed a hazard to road users.
3. There is no central database that records when stolen/damaged/abandoned vehicles are towed by Police, nor is there any operational reason to need such a database that would outweigh the costs involved in maintaining such a database. Individual records of tows would generally be recorded within the details of each occurrence.

We are unable to provide some of the information you have requested pursuant to section 18(f) of the Act as the information requested cannot be made available without substantial collation or research.

If you have any questions, you may contact me.

You have the right to ask the Ombudsman to review my decision if you are not satisfied with Police's response to your request.

Regards

Dave
