Subject: Complaint Regarding Government Wasting Water
Date: Saturday, 12 February 2022 7:06:44 pm

To Whom It May Concern

I am writing this complaint concerning your water level 2 restrictions which means there is a ban on sprinklers and irrigation systems in Wellington and I do not believe That the NZ government to be exempt from these restrictions.

Sprinklers have been turned on at Parliament, where a protest is in its fourth day, and Speaker Trevor Mallard says they will remain on all night.

Speaker Trevor Mallard told 1News he made the decision to turn the sprinklers on.

He said the protesters were not legally on the grounds so he did not have a problem adding slight discomfort.

Regards [REDACTED]

Customer phoned CC today with a complaint regarding the use of water sprinklers at the protest, this call was escalated to a TL. Have advised customer it is a Police matter and council are acting where appropriate in the advice of the Police. They are wanting to know that WCC will be holding Trevor Mallard liable to "willful damage". Have reiterated that crown land is the responsibility of The Crown and Council can only enforce matters impacting Public Land when it is safe to do so. Have also advised damages to public land is something our Roding/PSR teams will address as advised in our FAQs. Customer refutes that WCC cannot prosecute for willful damages from the use of sprinklers if it's on Crown Land. I have advised they need to raise this with Police however they advised they have and there is no "co-operation". Advised customer, we cannot speak to what actions, if any, will be taken against Trevor Mallard as an individual. They have requested to have this passed on - I have advised customer I cannot guarantee a timely response being it is a Police issue and private land concerned however they would like this query passed on as they want to know "what action WCC will be taking". Unsure where is best to place this information and have been advised Assurance may be best. A ticket has also been raised in information request. Customers name is [REDACTED]

HI there I would like to make a complaint against the water sprinklers at the beehive I'm a resident and it's asbultley disgusting that we have water restrictions right now and the government can just waste water on a whim and expect us resident to stick to the ban. It's not one for the government and one rule for us
Sort it out please .

Irrigation turned on in the gardens outside parliament overnight during a drought where there are local water restrictions in place. A so-called weekend of rain where irrigation is not necessary and a waste of precious water resources. And a

What is your desired solution?

Those who decided to turn on the irrigation to be fined for reckless waste of water during drought causing flooding.

Would you like someone to call you to discuss your complaint in more detail?

Yes

Intentional breach of water restrictions when it was raining!!

What is your desired solution?

Fine to the party turning sprinklers on and whoever instructed this fined severely as we are a team in this together.

Sprinklers have been turned on pavement grounds whilst there is a peaceful protest & extensive rain

What is your desired solution?

Turn off the sprinklers as this is flooding the grounds and there is a drought order in place

There is no reason other than a sinister one to have the sprinkler system going on parliament grounds. Firstly we are in the middle of summer and there are water shortages, secondly there is a peaceful protest currently on the grounds and lastly it's raining!!!

What is your desired solution?

Immediately turn the water system off!!!

Trevor Maard turned on the sprinklers at the government gardens and intended to leave them on for the entire weekend.

I am sure you are aware that Wellington is currently in level 2 water restrictions.

Furthermore, with the rain today it shows even more contempt for the Wellington population that Trevor Maard does not consider any rules apply to him.

What is your desired solution?

You need to find Trevor Maard.

He needs to attend a lecture on conserving resources.

He needs to write a letter of apology to the Wellington rate payers and pay to have that placed in the Dominion Post.

The speaker of the house ordered sprinklers on Parliament's grounds to be turned on starting early afternoon on Friday 11th Feb 2022.

I understand that there is a water restriction order in force by WCC and the days and times for which sprinklers can be used is detailed.

I

Wish to lodge an OIA to know

1. Has the council received any complaints re this
2. Has the council investigated and or sent a cease and desist border to the names Mr Trevor Mallard

Is your request urgent?

Yes

If your request is urgent, please tell us why

There is a water restriction on force and the use of water for this activity of deliberately soaking people (rather than keeping lawns fresh)!is gross abuse of power.

If this Continues people and children on site in tents run the risk of falling I'll so this is a health and safety issue

Hello,

I would like to make a formal complaint to the Wellington City Council regarding the irresponsible waste of water that's going on at present at Parliament Buildings, and according to NZ Herald, the sprinklers will be purposely left on all night.

Apart from any of the other issues, the waste, during water restrictions, and at any time, should not be condoned by council, whether by government decree or not.

I would like to know if council will cut water supplies to prevent this waste and what measures will be taken to take the government to task over this. If a private citizen did this, there would be severe consequences. I hope you will not allow a double standard, and turn a blind eye to this blatant act.

Yours sincerely

To Whom it may concern,

I am appalled at the actions of the house speaker Trevor Mallard to turn on the sprinklers on the parliament grounds, in what can only be described as a petty and childish bid to make the protesters there uncomfortable.

Not only was there already wet weather expected, there have been water restrictions across NZ this summer. It is therefore an extremely wasteful use of a precious resource.

Anyone could have foreseen, with or without the additional rain, that this would result in a terrible muddy mess, so for 'Stuff' to report in the news this morning that this will need to be repaired at taxpayers expense is really quite insulting.

Trevor Mallard should be held accountable and asked to make and pay for reparations himself.

Kind regards,

[REDACTED]

Hi there,

I look like to make a complaint about about parliament sprinklers being turned on at parliament as there are water restrictions on. Complete waste of water as it is also raining. Please have them turned of immediately.

Thanks have a great evening,
