

**Compulsory standards for this step are listed in the Operational planning for animal pest operations SOP docdm-1488532, Planning phase step 6. Communication Plan template user guide: DOCDM-1108789**

**Objective:** To seek community and tangata whenua views on the effects of the preferred control method and the proposed treatment boundary. DOC is open to discussing what concerns people have about the operation and plan may satisfy these concerns. Landowner and occupier consent are also obtained at this time.

Rows shaded orange indicate those landowners occupiers that written consent is required from before the operation proceeds.

May want to debate 1080. Water source is located downstream of the operational area		Letter Phone On Site Visit On Site Visit Post

<p>No previous contact and don't know what the reaction will be. There is a history of strong opposition to 1080 from within the local community. Public/private water sources are located within or immediately downstream of the operational area. Fenced and sensitive boundaries of anti-1080 adjacent landowners, and opportunities for private landowners to have pest control as well.</p>	<p>Letter Phone On Site Visit Email Email On Site Visit Email</p>
<p>Whist [redacted] is not supportive of 1080 he is good to deal with and cooperative. He has a water source which he will want 24 hrs notice to shut off. He also has an unfenced boundary that will need his support to keep stock out of.</p>	<p>Letter Phone On Site Visit Post Phone Phone Post</p>
<p>[redacted] is very opposed to 1080 and will want to debate its effectiveness, she sees it as not working due to high possum numbers around her property. Water source are located downstream of the operational area. Unfenced boundaries so will need to work with [redacted] to keep stock out for operation.</p>	<p>Letter On Site Visit Email Phone Email Phone On Site Visit On Site Visit</p>
<p>[redacted] does not reside on the property anymore and his [redacted] takes care of his property. There is an unfenced boundary in which stock will need to be removed for the operation. A water source is located immediately downstream of the operational area</p>	<p>Letter Phone On Site Visit Letter</p>
<p>[redacted] is strongly opposed to 1080 and will want to debate its use and will ask for the boundaries to be moved. Water source is located downstream of the operational area. [redacted] will most probably ask for opportunities to be paid to do his own pest control.</p>	<p>Letter Phone On Site Visit Email On Site Visit Email</p>

in the past and Moehau Environment Group have run a ground based 1080 operation in conjunction with our aerial operation during the last on their property during the last operation	Letter Phone On Site Visit Email Email
Private water sources are located immediately downstream of the operational area	
This is a bush block with no dwellings. [redacted] is very supportive of 1080 and would like us to include his block however we are not able to as he has [redacted] block in between and [redacted] is opposed.	Letter Phone Email Email Email Email

**Consent conditions/agreements/risks or threats | this column are to be transferred into the Compliance Register**

**Kecora Outcomes**

*Any changes to operation; specify any outstanding issues*

25/03/2021 - Pre Operation Letter and Factsheet posted  
 29/03/2021 - Spoke with [redacted] and gave him a heads up on operation and expected timings.  
 06/05/2021 - Consult meeting undertaken, signed paperwork. 9:45am [redacted] leases and signed for all [redacted] side too. Water is sourced within 3km. To be GPS'd. Stock are near the treatment area. No fencing issues.  
 14/05/2021 - Copy of consult record sent.  
 16/06/2021 - Ops Controller confirmed with GIS that water intake is not affected by operations, and does not require marking by GPS. (Farm runs in opposite direction from treatment area).  
 23/06/2021 - Renotification letter and factsheet sent via email 2:48pm.

25/03/2021 - Pre Operation Letter and Factsheet emailed  
 30/04/2021 - 1:45 pm [redacted] responded to TCDCs notification letter dated 30/04/2021, where we had requested a TCDC contact to assist with possibly closing Stoney Bay Road. [redacted] advised applications for road closures should be addressed to the Thames-Coromandel District Council Traffic Management Co-Ordinator at [redacted] Request sent to him. Declined.  
 24/05/2021 3:55 pm - [redacted] emailed [redacted] again seeking approval to treat unformed roads within both Moehau and Papakai. Attached all relevant info, maps etc.  
 25/05/2021 7:30 am - [redacted] replied declining consent to treat paper roads, based on the councils stance towards 1080. He confirmed that 'The roads may be overflowed as part of the aerial transit between adjacent parcels of land. Should bait fall onto the road reserve at that time it should be removed by the end of the day'. Forwarded response onto DOC.  
 16/06/2021 6:44 am - Email received from [redacted] confirming the use of 1080 on council road reserve has been agreed with the Department of Conservation and that previous refusal of consent is rescinded.  
 16/06/2021 - Renotification letter and factsheet posted.

25/03/2021 - Pre Operation Letter and Factsheet emailed  
 25/05/2021 8:44 am - [redacted] emailed [redacted] at Colliers requesting permission for two LINZ hydro parcels. Attached relevant info including maps etc.  
 25/05/2021 12:05 pm - [redacted] replied confirming that those parcels are not listed on the LINZ balance sheet and unable to provide necessary consents over those properties.  
 22/06/2021 - Renotification letter and factsheet sent 2:48 am  
 23/06/2021 11:19 am - [redacted] replied asking for an aerial of the locations that this will affect.  
 28/06/2021 3:05 pm - Replied to [redacted] with map of hydro parcels.  
 29/06/2021 8:27 am - [redacted] replied confirming that there is no consents required by LINZ for those parcels, unless ownership is confirmed.

Confirmed with DOC site leads 15/06/2021 - no contact here, discuss during iwi consultation.  
 This piece is excluded from the treatment area.

10/05/2021 - Outbound call to arrange meeting. 11/05/2021 1:00 pm - Consult meeting undertaken with [REDACTED]. Signed paperwork. May have 70 sheep in there in July, [REDACTED] has confirmed they will not have access to the treatment area. Water intake within 3km. Fencing has been ticked as inadequate and in need of repair, however there are no other stock issues, and sheep will be managed.
23/06/2021 3:06pm Letter forwarded to [REDACTED] DOC Site Lead
23/06/2021 3:06pm Letter forwarded to [REDACTED] OC Site Lead
23/06/2021 3:06pm Letter forwarded to [REDACTED] DOC Site Lead
25/03/2021 - Pre Operation Letter and Factsheet posted 05/05/2021 7:43 pm- Outbound call to [REDACTED] to arrange meeting. 06/05/2021 - Consult meeting undertaken with [REDACTED] signed paperwork. Confirmed that [REDACTED] releases property and signed for all listed under [REDACTED] too. Meetings with sons same day but held separately. 16/06/2021 - Renotification letter and factsheet posted.
25/03/2021 - Pre Operation Letter and Factsheet posted 11/04/2021 - [REDACTED] responded to the letter via email 14/05/2021 - emailed [REDACTED] apologised for lack of communication following her email and letter, advised I had forwarded on to the Department to respond. 17/05/2021 - spoke with [REDACTED] on phone, concerns over pigs unable to be controlled during caution period 17/05/2021 - follow up email outlining phone conversation. 18/06/2021 - spoke to [REDACTED]. Couldn't arrange meeting. [REDACTED] wanted to discuss the other requests that had been sent to DOC, and not the aerial. 22/06/2021 - Renotification letter and factsheet emailed 2:57 pm.
25/03/2021 - Pre Operation Letter and Factsheet posted 07/05/2021 - Consultation meeting undertaken, signed Affected Party Checklist. Water sourced from within 3km - to be GPS'd. Fencing ticked as inadequate however there are no stock issues. 10/05/21 - 5:33pm - Outbound call to [REDACTED] to advise farm maps had been printed for her and I would meet her at the DOC office in Coromandel tomorrow (Tuesday) 11/05/2021 11:00 am - Met [REDACTED] at office to provide maps. 14/05/2021 - Copy of consult record sent. 25/05/2021 - Water intake marked by GPS 16/06/2021 - Renotification letter and factsheet posted.
25/03/2021 - Pre Operation Letter and Factsheet posted. 05/05/2021 7:30pm - Outbound call to arrange meeting. 06/05/2021 - Met with [REDACTED] unsupportive of operation, left an information pack, will not sign anything. [REDACTED] said she received a letter from us approx 2 months ago which said water should not be consumed for 6 months after the operation. [REDACTED] advised that we sent out a letter but it did not say that. 15/06/2021 2:00 pm - Water intake marked by GPS. [REDACTED] was not home however she left a note providing instructions on how to get to the water intake. 16/06/2021 - Renotification letter and factsheet posted.

<p>25/03/2021 - Pre Operation Letter and Factsheet posted</p> <p>06/05/2021 - Outbound call to arrange meeting.</p> <p>06/05/2021 - Consultation meeting undertaken, signed Affected Party Checklist. 25/03/2021 - Pre Operation Letter and Factsheet posted 10/05/2021 8:43 am - Inbound call from [redacted] to discuss operation, arranged meeting for 11th. 11/05/2021 1:00 pm - Consult meeting undertaken with [redacted] Signed paperwork. May have 70 sheep in there in July. Water intake within 3km. Fencing inadequate and in need of repair. No stock issues. 23/06/2021 - Renotification letter and factsheet sent via email 3:14pm
Nov 2020 - [redacted] spoke with [redacted] about upcoming operation and how best to engage with Iwi 04/03/21 - [redacted] sent email. 13/3/21 [redacted] sent this email: The Tiakina Ngā Manu predator control program has two scheduled aerial 1080 operations in the Coromandel for September this year, Papakai and Moehau. [redacted] our senior ranger would like the opportunity to meet with and discuss this proposed work with the Hauraki Collective, do you have any thoughts on how we might best be able to engage / organise a hui for this Kaupapa? Aerial application of 1080 is very contentious, and I would like to include some of the national science and advisory teams to support. I would like this to be engaging for all those involved and try to start breaking away from traditional DOC "consultation" or at least start to. 13/03/2021 - [redacted] sent email about upcoming operations and offering to meet and discuss 25/03/2021 - Pre Operation Letter and Factsheet posted- as at 15/06/2021 no response has been received. 13/07/21 - [redacted] sent another email asking to arrange a time to meet with [redacted]
04/03/21 - [redacted] sent email. 05/05/21 - [redacted] met with [redacted] thinking for large scale animal pest control [redacted] asked the question would Ngati Whanaunga in the future look at taking on aerial 1080 operations. [redacted] reply was they would be keen to look at it in the future.
04/03/21 - [redacted] sent email.
04/03/21 - [redacted] sent email.

04/03/21	sent email.
13/07/21	sent email to arrange time for meeting.
05/05/21 -	met with [redacted] (initially thought be the representative of [redacted] but this has since changed); he is neither antit or pro 1080 and understands predators must be controlled for entire ecosystem health.
Nov 2020	[redacted] spoke with [redacted] about upcoming operation and how best to engage with Iwi
04/03/21	sent email.
10/03/2021 -	sent email about upcoming operations and offering to meet and discuss.

04/03/21 -	sent email.
25/03/21 -	Fact sheet and letter posted to [redacted]
06/04/21 -	responded to letter - unsupportive of operation - passed onto DOC. Have had a email Response back to EcoFX from [redacted] on behalf of [redacted] requesting a stop to both operations on Moeheu and Papakai. This email was past on to [redacted]
20/04/21 -	[redacted] forward the email onto [redacted] to assist with a response back to [redacted] send a email and a phone call to [redacted] on the 10th May asking for a time for [redacted] to have a catch up to discuss his concerns. [redacted] email [redacted] back on the 13/05/21 indicating he was not able to meet because of work commitments [redacted] emailed [redacted] back on the 20/05/21. Indicating he would still like to meet with [redacted] and discuss his concerns and that his concerns and comments have been recorded into the communication plans for both Moeheu and Papakai.
04/03/21	sent email.
04/03/21	sent email.
22/05/21	and [redacted] met with [redacted]
21/06/21	sent follow up email answering questions that were asked at the meeting.
	They asked some very relevant and thoughtful questions and generally, while not supportive of Aerial 1080 appreciated that this is our most viable control measure.
	They sought clarity on the persistence of 1080 in the environment with particular interest to how these operations impact on pig hunting and the ability to gather food. Also interest on any studies undertaken on 1080 in water - we will go back to them on this.
	They also were aware of the difficulty around trapping especially getting people on the peninsula to undertake this work.
	A very positive meeting and good opportunity to create some relationships.
04/03/21	sent email.

04/03/21 - [redacted] sent email. Reply: Kia Ora Koutou On behalf of [redacted] we will consistently support DOC in using 1080 until some other mass vermin control weapon is invented that has the same result but with better environmental outcomes . Our experience at [redacted] in deploying 1080 with DOC support had incredible outcomes for the good of our Stewardship . This is not to say that our iwi are all of one voice and mind . Of course we have our anti 1080's and invariably they are all anti vaxers as well . But they are our Whanau and we must defend and uphold their right to pro choice without demonising them . The Runanga has widespread support and members of our Executive are ready willing and able to stand and support our position publicly . Heoi Ano
25/03/2021 - Pre Operation Letter and Factsheet emailed 25/03/2021 - [redacted] responded: Kia Korua [redacted] have no opposition to this Pest Control programme . We wish you all the best in your endeavours . For the record we have Whanau within [redacted] that are opposed to 1080 and we are accepting of their opposition but they do not over rule the rights of other Whanau that accept this tool and programme at this time . Heoi Ano
04/03/21 - [redacted] sent email. Reply: Tena koe As outlined by our lead negotiator, you have my full support. [redacted] and myself are standing by to assist in anyway possible to see a successful delivery of bait into the identified blocks. Please do not hesitate to contact either of us, or call into the [redacted] offices in Coromandel. Best of luck ehoo. Kia Kaha!

04/03/21 - [redacted] sent email. email sent - 4/3/21

14/04/21 - Replied to [REDACTED] - requested contact number so we can schedule a consult meeting. Advised in his area in approx one months time.

14/04/21 - Hi [REDACTED]  
Thank you for your email.  
Can you please tell me what form your "consultation meetings in approx. one months' time" will take? Will you be meeting with all adjoining landowners individually?  
Please add my email address to your Moehau and your Papakai contact database.  
Many thanks,

15/04/21 - Responded to [REDACTED] to confirm that yes we meet with all adjoining landowners. Provided some info on water and links to the MOH guidelines of which we are obligated to follow, EPA reports on water etc. Asked [REDACTED] if he is an adjoining landowner to either of the operations.

15/04/21 - From [REDACTED].  
Thank you for your reply.  
The attachments below establish that 1080 flows in stream water after a drop. But what happens before a drop? How do you locate water sources and how do you judge if disconnections are required?  
Many thanks,

28/04/21 - Hi [REDACTED]  
Please let me know how you locate water sources and how do you judge if disconnections are required?  
Many thanks,

28/04/21 - Hi [REDACTED]  
Can you please supply a contact phone number so our Operations Controller can arrange an appointment with you to discuss your concerns regarding water.  
Thank you,  
EcoFX Administration
