Notes:

[REDACTED] stated that the barking is not an issue as they only bark sometimes just like the rest of the dogs in the area. [REDACTED] house is only about 400 meters away and stated when the machinery is going in the area it is worse than all the dogs in the area. Tried to call the complainant a few times - no answer.

Notes:

on her property. Video recorded by cellphone, not trail camera as usual by complainant.

Phoned dogowner, [REDACTED] who did not dispute the incident and acknowledged both dogs were missing for approx 10 minutes.

[REDACTED] is not 100% sure where the dogs escaped [REDACTED] property but [REDACTED] had put iron across possible routes. [REDACTED] has installed electric boundaries to keep the dogs confined but yet the dogs continue to wander. Three-strike rule explained to [REDACTED] and warned for disqualification.

[REDACTED] understands [REDACTED] is hearing disqualification and has decided to sell up [REDACTED] home. The new property will be confined more adequately to prevent any of [REDACTED] dogs wandering in the future.

[REDACTED] had the real estate visiting yesterday which caused [REDACTED] to lose track of where [REDACTED] two dogs were on this occasion.

Notes:

recorded since 1990's. No covenants recorded in the area to prevent the ownership of dogs. Norci provided several photos showing two dogs roaming on her private property on the 31st May between 0800-1100hrs.

The two dogs are identified as schnauzer breeds however show no unique features to confirm ownership belonging to [REDACTED]

Kivi Bush Lane has (8) dogs registered to the street.

(7) belonging to [REDACTED]
(1) ID 63514 "Patron"

20/6 1530hrs - Phoned [REDACTED] and discussed the previous investigation. [REDACTED] acknowledged the dogs photographed were [REDACTED] schnauzers however [REDACTED] disputes and wrong doing. [REDACTED] explained the photos taken at night were of an incident when [REDACTED] was walking [REDACTED] dogs and two jumped over a electric fence into Norci's property but were retrieved within 5 minutes. I explained to [REDACTED] all dogs been exercised on public property must wear a lead and the incident [REDACTED] is describing is a clear example of failure to keep dog controlled or confined.

I advised [REDACTED] of further evidence provided of [REDACTED] schnauzers wandering on the 31st May between 0800-1100hrs. [REDACTED] disputed this evidence before [REDACTED] has seen it as [REDACTED] believes they were taken on public property during [REDACTED] exercising the two schnauzers.

I advised [REDACTED] a second infringement would likely be issued with a warning for disqualification. [REDACTED] verbally requested the evidence be approved to be supplied to [REDACTED] via email to dispute the infringement.

Nora updated of investigation by email and encouraged to provide further evidence for example, provide location of camera on her property.

* follow up required.

ENTERED

26/06 1845 hrs Nora replied to my email with further evidence of wandering nuisance.

* Photo Declaration signed

* Map of distance between dogowner address and complainants residence.

25/06 1047 Email received by [REDACTED] adding further information to the wandering nuisance.

FCC DS10751 issued to ID 80697.

Identity of offending dog is unknown. Infringement issued to [REDACTED] as the known owner of several schauzerters on Kari Bush Lane.

Hi Christine,

I've only just had the chance to look at my trail camera again, as I had problems with my card reader.

There were two, possible three, schnauzers roaming in my reserve again on the 31st of May. The date in the camera is one day behind.

Attached the whole sequence, which shows that they must have been out for at least 3 hours. This is simply not acceptable.

Can you please let me know what course of action WDC has taken and has DOC been informed about this ongoing problem with the schnauzer breeder?

Regards,
Nora

Hi Christine,

I couldn't fill out the form online so I had to print it out and scan it, which is why it took so long. Please find attached the signed form.

Also attached I am sending you a topographical map, which shows the distance between my house (marked 203 Te Toiroa Rd) and the dog kennels. Note: Kiwi Bush lane is a private R.O.W. not a public road. Megan's property is on the corner of Te Toiroa Rd and Kiwi Bush lane.

The distance from the dog kennels to my house (and the camera) is approximately 200m and my trail camera is approximately 20m away from my house on my drive way. The time when the camera was activated is marked on the photos.
I also have photos of my car leaving my property that day, if they are needed for evidence.

I actually had heard dogs barking and splashing in the pond across from me on Megan's land and water birds taking off in panic. There are pateke and paradise ducks resident in this wetland, as well as other native birds.

As I had an appointment in town, I didn't have the time to investigate and I do not trespass on people's private property. The photos clearly show that the dogs were wet.

Best regards,
Nora

Subject: RE: Schnauzers roaming on my land on the 31st of May

Afternoon,

Please complete the photo declaration to prove the evidence is legitimate.

Also, to confirm the photographs were taken on the 31st May between 8-11am?

How far is the camera from your home?

How far is the camera from the public road?

These questions are important as the dog owner will be asking to view the evidence.

Thank you

Good morning Christine,

please find attached the signed declaration, as requested. I cannot be certain about the absolute accurate time for the night photos, because these pictures were taken by a trail camera. As I not always set the actual time, it can be slightly off. The date should be accurate.

As for the daytime incidence on the 26th of February of the schnauzers at my fence, I do have an eye witness. It was a visitor who came down my drive and actually noticed them and made me aware. Unfortunately, my visitor is overseas for the next 4 months, but I am happy for one of your officers to come out and verify the site where all the photos were taken.

Kind regards,
Nora

EXTERNAL: This email originated from outside Whangarei District Council. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Hi Christine,

this is an update on the situation with my neighbour Megan the schnauzer breeder on Kiwi Bush lane.

I haven't had time to look at my trail camera for a while and have just seen the pictures of 2 schnauzers on my property at night on the 7th of April around midnight.

I also have a picture of 2 schnauzers on their own on Kiwi Bush lane on the 26th of February, at my fence line.

Please find attached the photos.

I haven't wanted to keep your noise control officer busy coming out here all the time. The barking frenzy of Megan's dogs, have been heard by all the neighbours. It doesn't happen every day, but there are days when it is very frequent and lasting for up to 15 minutes and more. They bark at every passing car and person. One of the neighbours is apparently planning to sell up and move because of the unacceptable noise. I don't know if she has made a complaint. The other problem is, that the schnauzers often set off other dogs, who previously were not barkers. Since many people have dogs themselves, they don't want to make a complaint.

I really cannot understand that it is permitted to have dog breeders right next to a bush reserve and a registered Kiwi habitat. On the WDC webpage under 'Exercising your dog', it says they are not allowed at bush reserves, see screen shot. Can you please let me know, if there are other avenues to resolve this situation?

Kind regards,
Nora

Hi Christine,

here is the photo of the 2 Schnauzers from Meghan, who were on my land on the 6. Dec at 20:30.

I could not get a photo of the other dog that was in my reserve yesterday morning around 10:30 am. It was a rusty brown terrier-like small dog, lower jaw protruding and was

apparently not wearing a collar. I'm told by a neighbour that it's name is 'Rusty' and that it's owner, Carly and her husband Regan, frequently have to search for it.

Yesterday it came running out of the bush to my house. I heard people walk on Kiwi Bush lane with horses and went after them. They never even looked back to see where their dog was, let alone call it. I asked Carly to put her dog on a leash and she ignored that. It is not for the first time that I have asked this woman, to put her dogs on a leash. She also has a whippet, which I have seen weaving in and out of my bush reserve before. There are signs that say that dogs need to be on a leash, because of the Kiwi, but hardly anyone complies. Carly must have returned to their property on a different route, because I didn't see them again. Meantime I could get some details though. Her name is Carly Low and they live off Te Toiroa. Unfortunately I don't know their property number, but I do have her mobile number: 021-2733277

I will send Carly a message saying that I have reported her and have zero tolerance from now on, but I would appreciate if you'd have a talk with her too and inform her about the dog control laws.

Best regards,
Nora
