Mark Burgess
fyi-request-19924-01f33bf4@requests.fyi.org.nz

REF: OIA-10546

Dear Mark,

Request made under the Official Information Act 1982

Thank you for your email of 15 July 2022 requesting the following information under the Official Information Act 1982 (the Act):

*I'm requesting a list of the gps locations of all the NZTA (*not Police*) owned/operated safety cameras in the country.*

For the purpose of your query, we have considered Waka Kotahi NZ Transport Agency safety cameras to be those that are used to monitor traffic signals (red light cameras), speed or enforce speed limits. According to this classification, Waka Kotahi currently owns and operates a total of six safety cameras, all located within the Waterview Tunnel. Three cameras are in the same location in both the northbound and southbound tunnels. Waka Kotahi does not currently operate any red light cameras.

As per your request, please find the below GPS coordinates for safety cameras owned and operated by Waka Kotahi.

- Northbound Tunnel -36.885346, 174.703057
- Southbound Tunnel -36.883773, 174.702938

You may also be aware that Waka Kotahi is currently undertaking a trial of camera systems which can detect driver distraction. These cameras will be used at three different locations in Auckland but are not being utilised for any enforcement activity. You can read more about the trial at: www.nzta.govt.nz/media-releases/safety-camera-trial-to-detect-unsafe-mobile-phone-use/.

In line with Waka Kotahi policy, this response will soon be published on our website, with personal information removed.

If you would like to discuss this reply with Waka Kotahi, please contact Mark Stables, Principal Adviser—Safe System Crash Investigation, by email to mark.stables@nzta.govt.nz.

Yours sincerely
