

Meet your new study partner

Get started on your journey to medical school with MedView's new UCAT tool. Develop a study plan and make sure you stay on track to achieving your goal of becoming a doctor!

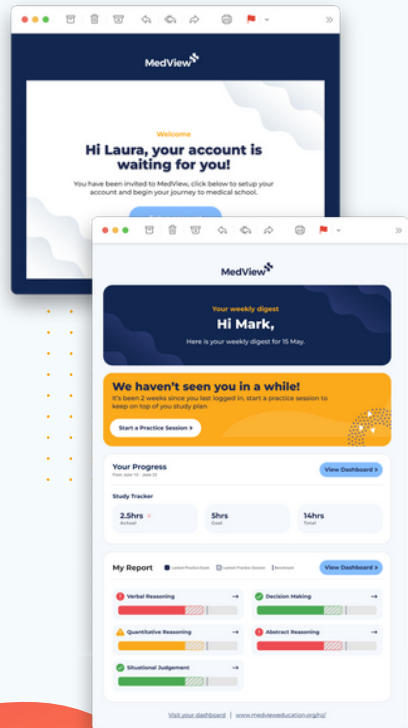

Students get:

- + Access to a UCAT diagnostic test to understand their baseline level of performance
- + Created a personalised UCAT study plan based on their exam date and results of their diagnostic test
- + Personalised feedback on what areas they need to improve on (dashboard and study plan)
- + Access to 3500+ practice questions including 10 full mock exams
- + Realistic UCAT testing experience including accurate UCAT scoring algorithm
- + Weekly digest email to remind them of key areas of improvement

Parents get:

- + Access to the students' results so they can log in anytime and see how their student is performing
- + A weekly digest email with high level key metrics about their student's performance
