Dear John

Further to our email dated 17 April 2023, please see the below table which shows the total number of students enrolled in Health Sciences First Year (HSFY) at the University of Otago as at 30 April 2023, broken down by International and Domestic students:

	Number of students enrolled in HSFY	Number of students enrolled in HSFY (%)
Domestic	1,106	89%
International	134	11%
Total	1,240	100%

The figures we have provided you above are the figures used for the University's official Semester 1 reporting as at 30 April 2023. The University does not report on enrolment figures any earlier than this as students are still moving between and settling into their respective programmes for the academic year. Therefore, providing you with the enrolment figures as at 20 March would not provide you with an accurate figure of HSFY enrolments for Semester 1 2023.

I trust you will find this information helpful.

Yours sincerely

Kelsey Kennard
Official Information and Compliance Coordinator
Office of the Registrar
