IN COMMITTEE

The Board went into committee at 7:54pm

The Board discussed the re-allocation of staffing resources & proposal.

Re-Allocation of Staffing Resources

- The current situation of having 3.6 classes is attaining the desired outcomes of maximizing the learning outcomes for our students. This is also coupled with the medical situation and absences of one of the teachers.
- Now, we have major class disruptions for those students. We need to rethink and reflect on how we can tackle this issue.

Proposal –

- **R3 ceases to be an independent classroom where students come out of R2 and R4.**
1. The teacher's time, when present, will be used to provide targeted accelerated learning to students who need it the most and for those who are gifted.
 2. Students from R4 will come out to spend time for the extra tuition during the first block while students from R2 will come out during the second block.
 3. The main teachers from R2 and R4 will provide the accelerated learning teacher with names of students who need the help and a list of learning objectives in Mathematics, Reading, Writing, and Vocabulary (monthly or termly basis).
 4. The accelerated learning teacher will be responsible for the planning and the delivery of the content and keeping a running record.

5. Students this way will be out for one block instead of two. This would minimize the disruptions and create a stable learning environment for all students.
