Dear Frank,

**Local Government Official Information and Meetings Act (LGOIMA) 1987 Request: ECC EOC Seismic Resilience 1 Dunorling Street Alexandra.**

Thank you for your correspondence dated 5 July 2023 in relation to ECC EOC Seismic Resilience 1 Dunorling Street Alexandra.

Please find the CODC response to the information request below:

**1. Please provide the buildings current %nbs at IL4, the date of the last assessment, and the type of seismic assessment completed.  
Alternately if you do not hold/cannot provide the above please provide the last seismic assessment for the buildings identified above.**

A six stage refurbishment project for the Alexandra Service Centre was started in 2018 and included structural alterations work to 100% NBS (IL2). Stages 1-5 were completed from 2018-2020 and the final stage has just been completed.

No ISA or DSA assessments had previously been undertaken as the building did not meet any of the criteria for earthquake prone buildings.

However, Batchelar McDougal Consulting were engaged in January 2023 to complete a DSA to IL4 level for the Alexandra Service Centre.

A copy of the DSA assessment report is attached.

I trust the information provided is sufficient.

Yours sincerely

**Tara Bates**  
Property Officer
