Subject: RE: Re: More pressing Legal input into RCS Project

Hi again Ben – when assessing the risks yesterday, it was noted that there is pressing action around listing the data we have available now, so that Hannah can do her analysis and let us know what we need to seek permission for. I understand that John is the person to perform the stocktake, and that he is away this week. Hannah is also away from 14-26 April – so ideally we get to her today/Thursday (not sur how practical that is - Hannah also mentioned she may be able to arrange cover while she is away). Robert suggested Robin Meaclem could assist with this. Are you happy for me to engage with him?

Cheers
Trish

Hi Ben – I understand that Hannah is required to confirm:

- Under what powers previous data relevant to RCP has been collected? – e.g. are we able to re-purpose the data for this use of this project.
I presume we need to be clear about what data we mean, can you clarify this – e.g. previous data = ?? or direct me to who can specify...
- What powers will be required for the data that we don't have/need to collect

Down the track Hannah will also be required to review:

- Terms of Reference (confirm it is within our powers)
- Voluntary Info Requests
- Analysis stream / Publication

She is not required to have input on the Copper Review side, – Miriam is involved with that.

Cheers
Trish
