You don't often get email from hiramai.rogers@tuatahifibre.co.nz. [Learn why this is important](#)

Kia ora Market Regulation Team

Tuatahi First Fibre would like to participate in this study. Rural areas are very relevant to the Waikato, Bay of Plenty, Taranaki and Whanganui regions we operate in.

We understand the attached Data Request has been circulated to others, and we would like the opportunity to provide input into that data collection process.

Please forward through any relevant information requests. I look forward to hearing from you.

Subject: ComCom - 2022 Telecommunications Annual Monitoring Report

Tēnā koutou

This morning we have published our 2022 Telecommunications Annual Monitoring Report.

The 2022 Report looks a bit different from previous annual monitoring reports. We have revised the report this year to ensure that it continues to provide useful insights for stakeholders on the end-to-end performance of the telecommunications sector. Rural connectivity now has its own chapter in the Report, alongside urban and mobile, with each looking at market structure, the levels of wholesale and retail pricing, through to consumer affordability and satisfaction.

The report can be found [here](#).

We are planning to engage with key stakeholders in the coming months on their experience with the revised report, but we welcome feedback from all readers on the new structure and where improvements could be made.

Please provide any feedback by 28 July 2023 to market.regulation@comcom.govt.nz with the subject line "AMR feedback".

Briefings

We intend to host a series of briefings in July 2023 to present some key aspects of the new report and give stakeholders a chance to ask questions and provide feedback. Invites for these briefings will be issued shortly.

Ngā mihi
Ben
