Kia ora 9(2)(a),

Thank for the daily update. I've logged those details in our system and will continue to escalate the missing data issue.

Hi folks,
Today's cases attached. I've mentioned this previously, but just to reiterate that the information coming to us from CBG is partially unusable. Yesterday, for over half of the people whose names were sent we have multiple people with the same name so we're not able to determine who it is that we need to be in contact with. We need a date of birth to be included so that we can determine who the person is.
regards,

Hi 9(2)(a),

Rather than trying to summarise all the aspects of our cases, here's a copy of the spreadsheet we're working off with the names and contact details removed. Any question please let me know. I'll send you an update of this each evening.

regards,
