Subject: RE: Covid case, UoA - notified 30/1/2021

Hi 9(2)(a)
Thank you for your email and for notifying us.
You clearly have strong links with ARPHS which is crucial as you work through the case and contact identification/classification process.

If you need support from the TEC please let us know.

We are releasing tonight a toolkit (via the bulletin) to take effect on the 8th of February 2022. I suggest you focus on working with ARPHS as you are, and follow their direct guidance right now.

Given our interactions with UoA 9(2)(a) we know you are very well prepared and you have strong systems and processes in place. We wish you all the best as you traverse this. If you are struggling or need assistance or advice, please be in touch with us.

Kind regards
9(2)(a)

Subject: FW: Covid case, UoA - notified 30/1/2021

Hi there both, just letting you know about a Covid case at UoA as per our processes (our first being treated as likely Omicron). I am working though information with our team and contact tracing requirements with ARPHS currently. We have a number of staff and students who are now staying away from campus and being tested or monitoring their symptoms.

Locations of interest currently are as listed here
<https://www.auckland.ac.nz/en/news/notices/2022/university-locations-of-interest.html>

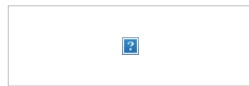

The case is a PhD student, in our Faculty of Science (research work only)

Any further information you would like, please let me know.

Regards
9(2)(a)
