We are pretty surprised too!

Our spoc will quickly contact 9(2)(a). Happy for you to progress with this one (assuming you don't need us) but we do need to understand some key parts to this rather quickly: how many in that hall currently and when this hall is expected to open for the year (I spoke to another uni this morning and theirs opening Monday).

Not wanting to be a pain and be in the way but reporting daily to the Minister and also need to remain on-top of the big picture across all tertiary.

We are happy to help anywhere in this but expect you to state when and if you want that. We are letting providers run this as they feel comfortable/confident. You all differ in that regard too!

Thanks 9(2)(a)

Thanks - they're not arguing with us, they just seem surprised :-)

Hi 9(2)(a)

Yes apologies we know this remains bumpy and we are so sorry about that. We are working with Health and they have assured us that they are notifying their various teams. We suspect that process is well underway (as not all areas are advising this issue) but that clearly for some areas it is still work in progress.

Subject: FW: follow up of university halls of residence

This doesn't bode well for internal comms between government departments... at least they are asking. This is from the Covid Lead PHN.
