Caveats to the data

- The data was collated on, and is accurate, as of 12 September 2023.
- Counts between 1 and 4 are masked by <5 to help prevent identification of individuals. For this reason, totals have not been provided as they would often give away the masked values.
- Some applicants incorrectly enter their place of birth as New Zealand when they apply for citizenship. When their application is assessed by the Department it will be corrected. Although, some New Zealand born are valid in a small number of circumstances.
- As the data is extracted from a dynamic system, there may be small variances when compared with prior or future datasets.
