Caveats

- The data was collated on Thursday 12 October and is accurate as at this date.
- For the tables with country of birth data (tables two and three), counts of less than 5 have been masked with <5 to prevent identification of individuals. Totals have not been provided in these tables as they would often give away the masked values.
- As the data is extracted from dynamic systems, there may be small variances when compared with prior or future datasets.
