Hi Peter,

It's just struck me that this time clashes with one of our LTP engagement events, which is on the Main Street. While only some Councillors will be at the engagement events, we would want all at the GTC discussion, I'm sure.

We'll look for an alternative time?

Vibhuti

Hi Peter et al,

If the following date works, Lisa has suggested:

Date: Friday 9 April 1-4pm

Workshop: UHCC/GTC MOU and Valuations

Unfortunately the other piggy back dates didn't work.

Regards,

Rob Thomas

Subject: w LISA - Workshop with Councillors Re UHCC-GTC MOU and Valuations
Rob,

After the last workshop with Councillors back in Dec 20 we gave an undertaking to bring back the valuations to them for a further discussion and update on where this process is at. We are now at the point where we need to bring this back to a workshop and identify a date where we could hold this sometime in late March or early April if at all possible. We could either piggy back onto an existing workshop or pick a new date.

Potential dates could be:

- Afternoon of Wed 31 Mar from 12.30pm-4pm leading up to the Finance and Performance comm which kicks off at 4.30pm.
- Another option is piggy backing onto the 8 Apr workshop which has Risk Management and the third and last ILM session. The latter requires two hours and I am not sure how long the risk management is scheduled to run, but Julia can advise on that.

With regards to the programme for the GTC-UHCC MOU portion of I would see GTC presenting their master design plan, which is due to be completed by mid-March and this will provide a birds eye view of the planned sub-division down to street/dwelling layout. We would probably need 3-4hrs total with GTC taking up the first hour then discussion with just Councillors and council staff over the remaining 2-3 hrs.

Can you please have the team cast around for a suitable date that we can lock in.

Cheers

Peter
