

### **Councillor workshop meeting- 2nd March 2021- feedback**

- Councillors had questions over who was consulted, explain consulted all clubs and groups and the memo only detailed the feedback received.
- Councillors were happy with the approach to Silverstream Spur
- Councillors were generally fine with the potential for an area of Te Marua to be developed as residential, but we need to work through the options for this area
- Some concern from Councillors about the potential for submissions to be received on the speedway, however we explained submissions could be received anyway, and we are happy with our proposed approach
- Not many comments received on the proposed rule framework, or the Maidstone designation
