

Appendix A to OIA 2324-0450

Caveats

- The data was collated on Thursday 11 January 2024 and is accurate as at this date.
- Table two has had counts of less than 5 masked with <5 to prevent identification of individuals.
- Country of birth is not confirmed until an application has been assessed by a LISO, therefore unassigned applications may not have the correct country. This is often the case with people entering New Zealand as the country of birth could have been written incorrectly.
- Processing of the remaining unassigned applications submitted during November 2022 started on 10 January so these numbers will quickly change over the next few weeks. You can see in table one that applications from 1 November 2022 have moved from Unassigned to Processing already.
- As the data is extracted from dynamic systems, there may be small variances when compared with prior or future datasets.
