Caveats:

- The data was collated on Wednesday 24 January 2024 and is accurate as at this date.
- A total number of 100 Citizenship by Grant online applications were received on 6 January 2023.
- Data with counts of less than 5 are masked with <5 to prevent identification of individuals. Line/column totals have also been excluded for this reason.
- Country of birth is not confirmed until an application has been assessed by a Life Identity Service Officer (LISO), therefore unassigned applications may not have the correct country.
- As the data is extracted from dynamic systems, there may be small variances when compared with prior or future datasets.
