Hi Leonie – yes that’s my understanding too – i.e. other countries were ok with its release. We could do a quick check and advise them of the OIA, what do you think?

Hi Gaynor,

I note that we have a new OIA relating to material provided in the Deep Dive session on Ethical AI.

Material in preparation is:

- Pre-reading summary report:

- Additional material including speaking notes can be found on page 18 to 22 of this report:

I would note that usually we would need to confirm with other countries, but my understanding is the countries were fine with its release – have cc:ed **Russell** in to confirm.

Cheers,  
Leonie
