Appendix one

This request is for one Police representative (Mobility / Digital Deputy Director, Andrew Hosking) to attend and present at the Apple Summit 2023 which will be held at Apple Park in Cupertino, California on October 10th to 12th.

This event is dedicated to international law enforcement agencies who use Apple products and developed solutions in order to conduct their policing activities. It is an opportunity for discussing technology relating to law enforcement with attendees, experiencing quality presentations, professional development, and networking with jurisdictions who use the same technology.

Some of the topics that will be covered encompass a broad array of new and emerging technologies including:

- New peripheral technology and their use in Law Enforcement
- CarPlay
- Vision Pro
- Officer Wellness
- Mobile Policing
- Digital Forensics
- Information sharing

This will provide the NZ Police attendee with great exposure to future advances in law enforcement Apple technology and enable them to build a network and relationships with other law enforcement agencies from around the world.

Further to this, NZ Police are recognised as one of the world leading organisations in the development and use of Apple in Law Enforcement. For this reason, NZP have been asked to give a presentation on their Mobility journey to the Global Summit. This is a great opportunity to showcase the work being done by NZP staff to continually innovate on how we do things.

Of note - Approval is being sought for this travel to be funded by the One.nz Innovation Fund

The attendees will provide a back brief to the Board of the findings/opportunities of the conference.

Hi Brian,

Yes I would love NZ Police to present.

I think a little on where you have been, Digital notebook demo and then perhaps a few thoughts on where your headed would be ideal.

In the end what your comfortable with of course.
