18 February 2016

Dear Fraser

**RE: LOCAL GOVERNMENT OFFICIAL INFORMATION REQUEST**

In partial response to your request for information regarding seismic and structural performance reports as contained in your email received on Wednesday 10 February 2016.

At question 4 you have requested information regarding the current seismic performance of Birchville Reservoir dam. I can advise that Upper Hutt City Council (UHCC) is not responsible for the Birchville Reservoir dam and therefore information regarding the dam is not information that is held by UHCC.

Under Section 12 of the Local Government Official Information and Meetings Act 1987 I am transferring your request to the Greater Wellington Regional Council as I believe that this is information that they hold. I have forwarded a copy of this letter to them together with a copy of your original email request.

If you have any further queries please contact me.

If you are dissatisfied with my response, you are entitled to request that the Ombudsmen review it under section 27 of the Local Government Official Information and Meetings Act 1987.

Yours faithfully

Karen Patterson
