Dear Mark

Request made under the Official Information Act 1982

I am writing to correct information that we provided you in our letter dated 6 April 2016 in response to your request dated 6 March 2016 requesting the following information under the Official Information Act 1982:

- '... the numbers of driver licences with and without "DONOR" printed on them, broken down per age group as in this publication on the NZTA website:
<http://www.nzta.govt.nz/resources/new-zealand-driver-licence-register-dlr-statistics/>

Unfortunately, the information we provided in our response dated 6 April 2016 was incorrect due to the headings of the columns in the table being inadvertently transposed. This meant the numbers that were in the column labelled "Donor Yes" should have been labelled "Donor No or blank" and vice versa. We have set out below the table with the columns correctly labelled. We apologise for the error.

As of 15 March 2016, there were a total of 3,440,888 current driver licences available for consideration of your request. The breakdown of these licences by age groups and donor status is set out in the table below.

Age group	Organ donor status		Total
	Donor Yes	Donor No or blank	
16-19	95,249	61,256	156,505
20-24	165,815	130,693	296,508

Please note the following caveats in relation to the statistics provided.

- The data includes information for all current standard and diplomatic licences issued in New Zealand.
- This information is current as of 15 March 2016.

We understand that Mr Andy Tookey is also in receipt of the information in our 6 April 2016 response. We will be making contact with Mr Tookey, advising him of the error and providing him with the correct information as set out in this letter.

If you would like to discuss this reply with the NZ Transport Agency, please contact Holly Ludlow, Manager Statistical Analysis, by email to holly.ludlow@nzta.govt.nz or by phone on (04) 901 6781.
