Dear Tony

I refer to your Official Information Act request of 18 July 2016 for information on the location of all red light and fixed speed cameras.

You requested:

*A full list of all red light and fixed speed cameras through the whole of New Zealand, including their location, either in form of actual street/road address, or as a CSV file of locations listing their longitudes & latitudes.*

In Police's response dated 7 July 2016, to the request of 17 June 2016, Police provided you with information that shows the locations of the fixed speed camera sites by road segment. As mentioned in our response, Police is concerned that the publication of the precise location of fixed speed cameras may trivialise or sensationalise high speeds and potentially create an environment where people may speed everywhere but where the cameras are. Identification of the precise location may also lead to camera infrastructure being damaged. We also noted that despite their name, fixed speed cameras are mobile and are regularly rotated between different sites within a Police district.

As mentioned, the information on the location of fixed speed cameras throughout New Zealand has already been provided to you and is now published online at <https://fyi.org.nz/request/4152-location-of-all-fixed-speed-cameras-across-new-zealand>. Therefore your request is refused pursuant to section 18(d) of the Official Information Act 1982, in that the information requested is publicly available.

You are now requesting the location of all red-light cameras in New Zealand. As this is additional to your request of 17 June 2016, Police have considered this as a new request under the Official Information Act 1982, with a due date of 15 August 2016.

Details on the locations of New Zealand Police owned and operated red-light cameras can be found on our website, <http://www.police.govt.nz/advice/driving-and-road-safety/speed-limits-cameras-and-enforcement/speed-cameras#anchor4>. To assist you, table 1 provides the location details of the three Police owned red-light cameras.

Table 1:

Intersection	City
Karo Drive & Victoria Street	Wellington
Te Irirangi & Tī Rakau Drives	Botany, Auckland
Lambie Drive Interchange (east-bound off-ramp)	Manukau, Auckland

Please note, Auckland Transport (AT) also owns and operates red-light cameras and sites. Like Police's speed cameras, AT's red-light cameras are mobile and are subject to rotation between different sites. There are 15 red light camera sites owned by AT. Table 2 provides the location information Police holds on each of these sites.

**Table 2:**

Intersection	Locality
Symonds Street & Karangahape Road	Auckland City
Karangahape Road & Queen Street	Auckland City
Ponsonby Road & Hopetown Street	Auckland City
Albert Street & Victoria Street West	Auckland City
Wellesley Street West & Albert Street	Auckland City
Wellesley Street East & Mayoral Drive	Auckland City
Gore Street & Customs Street East	Auckland City
Union Street & Nelson Street	Auckland City
Hobson Street & Cook Street	Auckland City
Wellesley Street West & Albert Street	Auckland City
Wellesley Street East & Kitchener Street	Auckland City
Ash Street & Rosebank Road	Auckland City
Fanshawe Street & Halsey Street	Auckland City
Pakuranga Road & Pigeon Mountain Road	Pakuranga
Stancombe Road & Chapel Road	East Tamaki
Te Irirangi Drive & Smales Road	East Tamaki

This reply contains data which is drawn from a dynamic operational database. This is subject to change as new information is recorded.

You have the right to complain to the Ombudsman in writing to seek an investigation and review of my decision if you are not satisfied with the way I have responded to your request.

Yours sincerely

Superintendent Steve Greally  
National Manager Road Policing
