Your Request for Information under the Official Information Act – OIA 2017/010

In response to your request dated 22 January 2017, I would reply as follows:

How many clients does Tracey Street have who have been affected by Tracey Street moving to Newton.

The number of clients who are on the South Community team caseload is approximately 408. These clients continue to be seen by their regular clinicians and receive the same assessment and treatment.

Yours sincerely

Nigel Fairley
General Manager
