Dear Steven

Official Information Request - Appliance Movements Auckland City Station Refurbishment

I refer to your official information request which was received on 20 February 2017. You asked for 'information for the appliance movements when/if the City Refurbishment occurs'.

In response, I confirm that a comprehensive refurbishment of Auckland City Station is on the New Zealand Fire Service's long term capital programme and planning for this is at an early stage. At the current time, the detailed logistics around the maintenance of operational performance (including appliance movements or redeployments) in the event of a comprehensive refurbishment have yet to be considered. The maintenance of operational performance will be a critical consideration as part of detailed planning for the refurbishment when that occurs.

I trust this answers your query.

Yours sincerely

Leigh Deuchars
Director, Office of the Chief Executive
