Dear Heather

Thank you for your application in relation to an exemption from Land Transport Rules.

After careful consideration the NZ Transport Agency has granted your vehicles and their drivers an exemption from Land Transport Rules.

To summarise, the vehicles are exempt from specified class NA vehicle requirements (so that they may be entry certified, registered and operated on a road). Furthermore, provided that NZ Post Ltd obtains separate approval from individual Road Controlling Authorities (RCA's), the vehicles may be driven along a footpath subject to any conditions imposed by these exemptions and by the RCA's.

A copy of the attached exemption must be carried in the vehicles at all times and must be presented on request from an enforcement officer.

Once again thank you for contacting the NZ Transport Agency

Yours sincerely
