

29 May 2017

Mr Shane Gibson
fyi-request-5816-05ad0786@requests.fyi.org.nz

Dear Mr Gibson

Thank you for your request made under the Official Information Act 1982 and received on 11 May 2017. You requested the following:

- *Does your organisation currently use the Atlassian Confluence Cloud service? (<https://www.atlassian.com/software/confluence>)*
- *Has a formal cloud assessment being undertaken and approved for the use of this service?*

Inland Revenue primarily uses the on premise version of the Atlassian Confluence software product. The Atlassian Confluence Cloud service is used for reporting issues or error messages with the on premise version back to the vendor. The Cloud solution is not used to store or process any Inland Revenue customer data.

Inland Revenue has a Cloud Access Security Broker in place to monitor all cloud services, which also performs a risk assessment of each cloud service accessed.

Thank you for your request. I trust that the information provided is of assistance to you.

Yours sincerely

Gary Baird
Chief Technology Officer
