Dear Kim

Local Government Official Information And Meetings Act 1987

Waiau Pa Hockey Pavillion

I refer to your enquiry which we received on 13 May 2017, requesting a copy of the builders report and the result of the asbestos testing for the Waiau Pa Domain Pavillion building.

Please see attached Assessment Report of the Waiau Pa Domain Pavillion building located on the Waiau Pa Domain Recreation Reserve which was completed on 3 May 2017. Included in the report are the findings from the asbestos testing which was undertaken at the time. The assessment report pertains only to the exterior of the building. The interior of the building has not been inspected.

The Community Facilities Operations management and maintenance team have also taken steps to isolate the risks associated with the asbestos being present in the building by installing a two metre high temporary fence and signage to prevent public accessing the building.

A report will be taken to the Franklin Local Board at a later date to bring to their attention the current condition of the asset and the asbestos findings at which point options and recommendations will be highlighted to the board for future direction and use of the community building.

Please note that some staff member's names have been redacted from the Asset Assessment Report to protect their privacy. This information is withheld under section 7(2)(a) of the Local Government Official Information and Meetings Act 1987 (LGOIMA).

I hope you find this information useful. If you have any further queries please contact me on 09 301 0101, quoting LGOIMA No. 8140001429.

Yours sincerely
